MELLON URGES CUT IN TAX ON EARNED INCOME

Believes Persons Who Work Should Not be Taxed so Heavily as Persons Who Inherit Wealth

PROPOSES TWENTY-FIVE PER CENT CUT FOR PERSONS WHO WORK

Reduction of $100,000,000 Seen; Can be Made Up in Other Ways

By DAVID LAWRENCE
(Copyright 1923.)

WASHINGTON.—Shall the man or woman who earns a salary or wages whose only capital is his or her mental ability or physical energy be taxed at the same rate as the persons who have inherited capital or who live entirely on the income of funds invested?

Secretary of the Treasury Mellon answers that question by saying that a twenty-five per cent reduction in tax shall be given to the people with earned incomes. This would include everybody who really works for his income whether employed in a factory, on a farm, in an office, in a household or even as an executive or director of a business or corporation.

Doctors, dentists, lawyers, actors, authors, bookkeepers, stenographers, all classes of clerks, all employes of railroads, farm hands, salesmen, commercial travelers, federal, state and city employes, insurance solicitors, collectors, department store employes of all kinds, workers in all manner of wholesale and retail establishments—these are examples of the classes of people who are to get the twenty-five per cent reduction in their taxes for earned incomes.

Fairness Unquestioned

"The fairness of taxing more lightly income from wages, salaries, and professional services," says Secretary Mellon, "than the income from a business or investment is beyond question. In the first case the income is uncertain and limited in duration. Sickness or death destroys it and old age diminishes it. In the other, the source of the income continues, it may be disposed of during a man's life and it descends to his heirs."

It is estimated that the government will permit tax payers in the "earned income" class to retain approximately $100,000,000 a year, the same amount of revenue being made up in another part of Mr. Mellon's plan for tax revision.

Even some of those who oppose a revision of taxes at this time concede that this particular suggestion of Secretary Mellon's is sound and that it ought to have been applied in previous years. Other countries have made such a distinction in their tax systems.

Can't Pass on Earning Power

The theory back of the differentiation between an earned income and what is technically called unearned income is that a doctor or a lawyer or a bookkeeper or a clerk works year in and year out just as a mechanic or a laborer using up vital energy, mental or physical. When that individual gets old and his strength has been sapped he cannot pass on his earning power to his children. He is through. Such a man, however, today, pays just as much taxes if his wages amount to $2,000 a year for instance as does a man who has accumulated through inheritance or otherwise a capital fund of $33,500 and has invested it at six per cent. The two thousand dollars of interest he receives on his money has been produced by the work of $33,500 invested in a productive enterprise or in securities of one kind or another. There are people with funds amounting to $2,000,000 who have invested it at six per cent and who are drawing

TWO NEW MEMBERS NAMED ON COUNTY ROAD COMMITTEE

Emil Knudson and George Schneeberger Chosen by Supervisors Thursday

DR. A. A. SKEMP IS NAMED NEW COUNTY PHYSICIAN

C. S. Van Auken Reports on Fair Building Program of Past Year

Two new members were elected to the road and bridge committee of the county board Thursday afternoon. The election developed quite a contest for two of the places. Emil Knudson, town of Onalaska, and George Schneeberger of La Crosse, were the new members. Adolph Nuttleman of West Salem, R. W. Davis of Bangor, and John Ash of La Crosse were re-elected.

Contest for Committee Jobs

Adolph Nuttleman was the first member selected, defeating Emil Knudson and Barney Olsen. George Schneeberger and Emil Guenther, candidates for re-election on the committee, were candidates for second member. Schneeberger was elected. Knudson was nominated again for the third member to replace V. S. Keppel of Holmen. William Storandt, Keppel, John Kindley, Olsen and S. P. Markle were nominated. Knudson was elected. John Ash was renominated for fourth member to succeed himself. Fred Goddard and Emil Gunther were nominated. Ash was elected. Davis was re-elected by acclamation. He had no opposition.

Just before the election of the committee Olsen asked for a 15 minute recess so that the supervisors could arrange an entirely "new slate," as Olsen called it, for members of the highway committee. The motion was lost as there was no second for it.

Dr. Skemp County Physician

Dr. A. A. Skemp was elected county physician. Drs. Reay, Heraty and Kesholt also were candidates.

John Hintgen was re-elected highway commissioner for another two-year term. He had no opposition.

Supervisor Markle and V. S. Keppel were re-elected members of the board of directors of the Inter-State Fair association, representing the county board.

Adam Kreuzer was re-elected to succeed himself as a trustee of the county insane asylum. L. J. Roberts was named to succeed himself as a trustee of the county sanatorium for a three-year term. Mrs. William Storandt of West Salem was named a member of the county health committee, succeeding Mrs. L. J. Yorly.

Mrs. Frank Schaller and Mrs. F. L. Smith were re-elected to the traveling library board.

Adolph Nuttleman, S. P. Markle and K. O. Guarder were re-elected members of the agricultural school committee.

Markle Asks Bridge Money

Supervisor Markle offered a resolution asking for an appropriation of $2,500, to meet a like amount voted by the town of Shelby, to build a bridge, known as Oehler's bridge, in the town of Shelby.

The buildings and grounds committee reported to the board that the county nurse's office would be removed to the offices occupied by Sol Burdick, poor commissioner, for joint occupation of the latter office and that the room vacated by the county nurse would be used for a library for the circuit court.

The soldier's relief appropriation of $1,500 was voted, an increase of $500 over last year.

C. S. Van Auken reported on the building operations at the fair grounds on Friday. Mr. Van Auken said that the Interstate Fair association had spent $14,997.92 on new buildings in the past year. He also said that the next building to be considered was a new grandstand. Various types of grandstands throughout the country are being considered by the board of directors.

Residents of French island have petitioned the county board to widen the causeway from the Black river bridge to Brambridge street, French island, to 24 feet and to resurface. They also want a concrete riprap built to prevent the high water from washing away the dike. The petition was referred to the road and bridge committee.

Seek Auto Damages

A claim for $200 damages to an automobile which skidded on freshly tarred road near Rainbow Gardens last summer and crashed into a passenger bus was filed by the American Eagle Fire Insurance company. The claim was referred to the claims committee.

County Treasurer Lunde reported on the financial condition of the county. Receipts for the year ending November 1, were $1,132,160.06. The balance in the general cash account on November 1 was $247,714.58. The balance in the redemption fund is $1,265.42.

U. S. DIRIGIBLE ON WAY TO TEXAS EXHIBITION

BELLEVILLE, Ill.—The dirigible TC-3 left Scott field, near here, early Friday morning on its scheduled flight to San Antonio, Texas, where it will participate in an aerial exhibition to be held November 18, it was announced.

INFATUATION FOR GIRL LEADS TO FOUR MURDERS IN MINNESOTA POSSE PURSUES MADMAN SLAYER

KELLIHER, Minn. — A madman, slayer of four, was fleeing through the north woods Friday before a posse formed here which took up the search at dawn.

Leonard Portano, 33, Thursday slew Mr. and Mrs. John Sanders, of whose 15-year-old daughter, Myrtle, he was enamored; Oscar Timmy, 30, farmer and suitor of the girl, and J. A. Wilson, marshal of this village, and deputy sheriff, who sought to arrest him.

The shootings occurred at separate times, in both the morning and afternoon. Before fleeing the murderer went to a timber cutting plant he operated and left a signed confession of the crimes, with a list of the dead.

Early Thursday, Timmy and Portano engaged in an altercation over Myrtle Sanders, during which Portano drew a revolver and shot Timmy through the leg. Timmy came the eight miles from the farm where the shooting occurred to this village, had his wounds dressed, and reported the case to Marshal Wilson, 45 years old.

While Timmy was gone Portano went to the Sanders home and shot dead the mother of his sweetheart. While he was going down the road from the Sanders home, he met the husband of his first murder victim, took Sanders to a nearby cabin, bound him to a bedpost, and shot his head off.

Portano kept on toward this village, and not far from here met Marshal Wilson, who had left to arrest Portano for wounding Timmy. Portano shot the officer dead. This was about noon.

Not far from the spot where Wilson was lying dead, the maniac met Timmy, who was going to the village to learn what had been done toward arresting Portano for wounding him. Portano met his rival in the road, and again the lunatic's revolver dispatched a fatal bullet, Timmy falling dead in the highway.

Prostrated by the crime she had been forced to witness as a captive of Portano, little Myrtle Sanders, for whose affections the two men had quarreled and the life-blood of four had been spilled, remained in seclusion at a hotel here, under care of a physician.

Portano, it is understood here, is also wanted in New York for a killing in that state several years before coming to the north woods eight years ago. Although this is not definitely known, officials said they heard rumors to this effect, which are said to have originated by statements made by his brother, Nick Portano, formerly of this place.

PENDING ELECTION TO DEVELOP BITTER FIGHT IN BRITAIN

Predict One of Fiercest Political Campaigns in Modern History of Nation

OPPOSITION SCORES GOVERNMENT FOR "TRICK UPON THE REPUBLIC"

Assails Baldwin for "Forcing Unnecessary Election"

LONDON.—By The Associated Press. —King George, acting on the advice of his cabinet, Friday morning dissolved parliament in preparation for the general elections to be held December 20.

It is predicted that the coming election will be one of the fiercest political fights seen in Great Britain in modern times.

The opposition parties feel they have a deep grievance against the prime minister for "playing a confidence trick upon the public" in concealing his intentions and forcing an unnecessary election. Mr. Baldwin's supporters resent this and warmly defend his "honesty of purpose."

Labor admits itself short of funds and attributes its poverty to the fact that "unemployment and under-payment have emptied the pockets of the workers. Its chief woman organizer, Dr. Marion Phillips, says this election represents for a daring example of the class struggle of the rich against the poor."

The decision of the laborites to adhere to a capital levy as the feature of their campaign is welcome to the other parties.

Labor, it is predicted, will suffer from its refusal to make any arrangement with the liberals with a view to avoid split votes.

Mr. Lloyd George's jibe in the house of commons yesterday that the ministers were going to the country with tin cans tied to their tails to ask a blank check—in allusion to the proposed preference duty on canned salmon—has taken the fancy of the liberal press.

TWO COLLISIONS OF CARS REPORTED

Two cars collided Thursday evening at Tenth and Cass streets, one belonging to Dr. Kinnear and the other to Leonard Thompson of Chaseburg. No injuries were reported except those of the cars. Dr. Kinnear's Coupe received bent fenders and small dents, while the car belonging to Thompson had the top demolished and fenders bent. Thompson's car was a Ford coupe. There were three occupants in the Ford at the time.

Another smashup occurred Friday afternoon at 1:20 on Seventh and State streets when a Buick crashed into an Overland coupe, driven by Mr. Voight. The Voight car received a punctured left front tire, broken left running board and smashed fender. The other car received one crimped fender and one broken spring.

FINISH RED CROSS DRIVE

In order to complete the annual Red Cross membership drive in La Crosse all citizens who have been overlooked by solicitors in this campaign are requested to call at any of the banks and leave their annual dues. Miss Mabel Young or R. W. Keyes will furnish additional supplies needed by workers.

Tried Suicide Won't Believe He Isn't Dead

CHICAGO, Ill.—Frank W. Halligan, chief clerk for the Chicago, Milwaukee & St. Paul railroad, thought he was dead for several hours Thursday night, and when informed by a hospital interne that he was alive was loath to believe it.

According to the police, Halligan fired a revolver at his head and ducked just he pulled the trigger. He dropped to the ground motionless. Policemen took him to the hospital, apparently unconscious, with a slight wound in his left ear. Officers said he intended to commit suicide.

Billy Eats Dynamite What to Do, Question

AURORA, Ill.—What to do with a goat that on Wednesday ate half a pound of nitro-glycerine in gelatine form, and munched two sticks of dynamite, is perplexing authorities here. No one has been found willing to approach the animal with any proposition.

The suggestion has been made that the goat be coaxed into a corner with a cabbage and chloroformed, but Dick McMahon, the owner, will not consent. He thinks the goat will digest the dynamite as completely as he has racing sulky tires and similar delicacies. McMahon's attitude is markedly different than that he entertained when the goat was left at his barn by Harry Reno of Chicago, who had been given the goat by William Wriggley, owner of the Chicago National league team.

Goat is Factor in Galli-Curci Dispute

CHICAGO, Ill.— A pretty white goat, much beloved by Mme. Galli-Curci, may have played a prominent part in the decision of the Civic Opera management to oppose "Dinorah" as the debut role of the star, who will sever connections with the company next season because her wish to appear as Dinorah was not respected.

The goat is dead. It had tiny horns and wore about its neck a collar with a tinkling bell. In the opera the goat was Dinorah's pet and it was in pursuit of the goat that Dinorah, out of her mind, wanders across a foot-bridge that breaks beneath her weight, thereby giving a plot to the opera and a thrill to the audience.

Hunting Season Three Days Old; Five Dead

MILWAUKEE, Wis.—The toll of lives in the north woods since the deer hunting season opened only Tuesday morning was increased to five Thursday afternoon when Elmer Hagstrom, 18, was killed by his young companion.

All of the five men killed have been mistaken for deer, with the exception of William Strebe of Taylor county, who was climbing a tree to watch a deer runway when Walter Esswein mistook him for a bear.

The other dead are Melvin Olson, Taylor county; August Schultz, St. Croix, and Adolph Tietz, Wausau.

Man, 65, Wife, 16, Can't Get Along

PANA, Ill.—Probably the record for disparity of ages in man and wife divorced was set in Shelby county circuit court Thursday, when Robert L. Edwards, 65, was granted a divorce from Earnie Edwards, 16, on desertion charges. Judge Dove said he thought he was doing the wife a favor by granting Edwards a decree.

BRITAIN AND FRANCE AT PARTING OF WAYS ON GERMAN QUESTION

London Finds France's Proposed Penalties Against Germany "Wholly Unacceptable"

BALDWIN WARNING TO FRANCE INDICATES APPROACHING CRISIS

Poincare Disclaims Blame for Present Differences

LONDON.—By the Associated Press. —Indications are multiplying that England and France are approaching the parting of the ways on the question of how to deal with Germany.

France's threatened penalties against Germany, if Berlin does not recede from its position on the extradition of the former crown prince and the re-establishment of full allied military control in Germany, are declared in government quarters here to be wholly unacceptable to England.

These penalties are understood to be:

First—The seizure of more railroads east of the occupied area which probably would include the eventual occupation of Frankfort by the French.

Second—Consolidation and extension of the Franco-Belgian military position on the Ruhr.

Third—The occupation of Hamburg and Bremen.

Paris dispatches said high officials of the French foreign office declared they knew nothing of any plan for French occupation of Hamburg, and the ground for this disclaimer would seem also to exclude Bremen.

Great Britain holds that all these threatened sanctions not only violate the treaty of Versailles, but would plunge Germany into a deeper economic and political mire from which it would be impossible to extricate her.

Poincare Disclaims Blame

PARIS.—By the Associated Press. —Premier Poincare took issue with Prime Minister Baldwin of Great Britain as to who is to blame for the present Franco-British differences when he rose unexpectedly to speak in the chamber of deputies Friday during an interpellation of foreign affairs.

"I can not let it be said that it is by our fault an agreement has not been reached," M. Poincare declared.

"For several years we have not ceased to make concessions from our rights, and it is not on our side that the attitude is uncompromising."

The premier said he had not intended to speak, because he could not at this time discuss certain subjects, but the occurrences in the British parliament yesterday could not be allowed to pass, and must be answered immediately.

Crisis Believed Near

LONDON.—Supporters of the government in parliament who heard Premier Baldwin's warning to France Thursday when he said he had spared no pains to let Great Britain's allies know that the British could not continue indefinitely to maintain the spirit necessary for co-operation if the present situation were allowed to continue, say his words must be taken literally. They declare this is one of the many signs that a crisis is approaching.

Many of these members of parliament favor separate action by Great Britain in dealing with Germany, but the whole situation in Germany is so complex and confused that they, like most of the cabinet members, are unable to find a concrete formula which would enable Great Britain to solve the problem independently.

Meantime every effort is being made through diplomatic channels to stay M. Poincare's hand from extending the occupation of territory and the carrying out of the other drastic measures suggested at yesterday's session of the council of ambassadors. British officials, however, admit frankly there is little hope of an agreement.

Paris to Act Alone?

PARIS.—By the Associated Press. —High officials of the French foreign office declared Friday they knew nothing of any plan for the occupation of Hamburg by French forces, as reported from various sources, and the idea was declared to be out of the question in competent quarters here.

There is little doubt that the French government is thinking seriously of doing something to show Germany that the treaty of Versailles must be carried out with respect to military control, as well as regards reparations, but Hamburg is not considered as lying in the area which France could cover advantageously.

Whether the French government intends to take separate action in case Great Britain, as is now generally anticipated, refuses to join in such a move cannot be confirmed in official circles. The tone of the comment in official quarters, however, shows that Premier Poincare regards the question of military control in Germany as a really serious matter, requiring action.

If action is taken to oblige the Germans to facilitate control of their armament production, however, the question of the crown prince probably will be included in any ultimatum France may send to Berlin. France is expected to ask that he choose a residence in some neutral country not bordering on Germany.

PRESIDENTIAL BOOMS PUT IN MOTION THURSDAY IN BOTH OF MAJOR PARTIES

EAST AND WEST WILL MEET IN POLITICAL RING

HIRAM W. JOHNSON

WILLIAM G. McADOO

JOHNSON AND M'ADOO BOTH ENTER RACE

Californian Issues Formal Announcement at Chicago, While McAdoo Supporters Launch Their Campaign

WESTERN SENATOR DEFIES PARTY LEADERS TO NAME CANDIDATES

Declares Choice is Right of Voters; Opposes Entry Into League of Nations

CHICAGO, Ill.—By The Associated Press.—Two presidential booms emanating from Chicago resounded throughout the country Friday following announcement by Senator Hiram W. Johnson of California that he was in the contest for nomination as republican candidate for president. His hat dropped into the political ring shortly after that of William Gibbs McAdoo, whose friends let it be known that they intended to support him for the democratic presidential nomination.

Senator Johnson launched his boom with a formal statement, issued after a conference here with party political leaders who favor his candidacy, in which he assailed present policies in domestic and national affairs, and enunciated the principles upon which his race will be made. He expressed unequivocal opposition to the league of nations and "all its subsidiaries," including the world court, and set himself up as the "progressive" candidate in contrast to the "ultra-conservative" and "ultra-radical."

Announces Platform

Sounding his keynote in the statement that the ensuing contest will determine whether the republican party shall be the permanent instrument of reaction or whether it shall respond to present day conditions and aspirations, Senator Johnson made this declaration:

"Theoretically, under our system, the people themselves select their president. Those states with presidential preference primaries not only recognize this theory, but put it in practice. They preserve the spirit as well as the letter of American institutions. It is an American's birthright to submit himself and his political tenets to the decision of his fellow citizens. He is entitled to their decision, and they are entitled to make it. I recognize no prescriptive right to office; and I deny that anyone or any number of men may disregard the popular will, and in defiance of it, dictate our candidates. Peculiarly should this be so at the present time.

Reaction vs. Progress

"The discontent and party difficulties arise not because of popular government, but from the lack of it. Two warring philosophies of government in the nation, just as in the state from which I come, struggle for mastery. Designate them as you will, the contest between them is age old.

"It's the old, old struggle beginning in the early days of man's first achievement, and never ending since. Reaction and progress must fight it out again in the republican party in the coming presidential primaries. I question not men now, but their philosophy of government. That which obtains at Washington does not fit present day needs."

HEART ATTACK IS FATAL TO STEPHEN MARTINDALE FRIDAY

Old Resident and Lawyer of City Succumbs in an Hour; Funeral Announcement Later

Stephen Martindale, old resident of La Crosse and one of the oldest members of the La Crosse bar, died early Friday morning at his home, Tenth and Cass streets, aged 64 years. Mr. Martindale was seized with a heart attack at 2 a. m. and died at 3 a. m. The funeral announcement will be made later. Surviving him are his wife, two daughters, Henrietta Martindale of Chicago and Katherine Martindale of La Crosse; a son, Stephen Martindale of New York; a sister, Anna H. Martindale of Los Angeles, and a brother, Edward H. Martindale of Washington, D. C.

INCREASE IN BREAD PRICES IN BERLIN STARTS FOOD RIOTS

BERLIN.—By The Associated Press.—A further increase Friday in the price of bread to 400,000,000,000 marks the loaf led to renewed food riots here. The police were obliged to charge crowds threatening to storm the bakeries. In the suburb of Charlottenburg many shops were plundered. There were numerous arrests.

BIG MEETING OF EX-SERVICE MEN TONIGHT

Tonight at 8 o'clock all ex-service men in this community are expected to be at the K. P. hall, corner Fourth and Jay streets, to take part in the big doings. Both the auxiliary and the Legion Post will have a brief business meeting and then will follow a program prepared by the hostess organization for the entertainment of "Our Boys."

Lunch and refreshments will also be served and the Legion band, which is coming on fine, will furnish some good music.

Be there, Buddy, or you will be S. O. L.

Next week will be a busy week for everybody in connection with the census of ex-service men, complete details of which will appear in the Sunday edition of the Tribune. The plans on the part of the ex-service men will be completed tonight for making the only complete and accurate census that has ever been made. Be sure to read the details in the Sunday paper.

FORMER WISCONSIN MAIL CARRIER HELD FOR BANK ROBBERY

CENTER CITY, Minn.—Richard Chafe, formerly a mail carrier at Wisconsin Rapids, Wis., is in the Chicago county jail here following his capture by three possemen three hours after he robbed the Shafer State bank at Shafer, Minn., Thursday. He escaped from the bank with between $4,500 and $5,000 in cash and currency.

When captured, Chafe gave the name of Ted Williamson, saying he lived in Minneapolis, but later admitted his identity. Clarence Lindstrom, son of Charles Lindstrom, president of the robbed bank, was one of the three men who caught Chafe, approximately fifteen miles from the scene of the robbery. The loot was recovered.

TWO ACQUITTED OF MURDER IN RUSSIA

LAUSANNE.—By The Associated Press.—Maurice Conradi, Swiss engineer, and his alleged accomplice, Paul Polonaine, a Russian, were acquitted by a jury today of the assassination of Vaslav Vorosky, soviet envoy to the second Lausanne conference, who was shot and killed on May 10 last.

U. S. AND CANADA SET PACE IN AUTO BUSINESS OF WORLD

Industry Now Third in Size in the U. S. and Employs 400,000 Workers

NEW YORK—(A. P.)—The automobile industry of North America is not a mushroom growth, but a logical development of the American carriage industry, says the Commerce Monthly, published by the National Bank of Commerce in New York, dealing with "The Motor Car in Relation to the Economic Life of the United States and Canada."

"The simple facts as to the production and use of automotive vehicles in the United States and Canada," says the article, "are so astounding that the attention not only of the business world but the general public as well has been focused on them and speculations as to the future of the automobile industry are a fruitful theme of discussion."

From the standpoint of the value of product, the industry now is third in the United States, and there are more than 400,000 workers directly dependent upon it for a livelihood, while the number indirectly dependent is much greater.

"The relationship of this vast industry to the general well-being of the country is obviously very close," the article continues, "and a correct understanding of the problems connected with it is of vital importance in judging business trends in the two leading countries of North America."

It is pointed out that at the beginning of 1922 there were approximately 14,500,000 registered motor vehicles in the world and the United States and Canada possessed 88 per cent of them, and the proportion of the annual world output is probably even higher, for the United States and Canada together dominate the markets of most importing countries. The argument that the industry is dependent upon road improvement is refuted by the fact that France with a population of 39,000,000 and famed for its good roads has only 260,000 passenger cars and 95,000 trucks; Great Britain with 47,000,000 population has 353,000 passenger cars and 145,000 trucks, while Canada with a population of only 9,000,000 has 462,000 passenger cars and 38,000 trucks. It also is pointed out that in the relatively newer portions of the United States, such as Montana, Idaho, South Dakota and Nebraska, the ratio of motor vehicles to population is much higher than New York, Massachusetts and Pennsylvania with their admirable highways.

INVESTIGATOR PROBES RESTHAVEN RUM PLAINT

WAUKESHA, Wis.—Thomas Hyden, Fond du Lac, was this week conducting a personal investigation into charges of bootlegging activities being carried on in the neighborhood of Resthaven eVterans' hospital here. He came here after receiving an invitation from Dr. C. L. Carlisle, head of the institution he desired.

COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action: it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds, or following influenza. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.

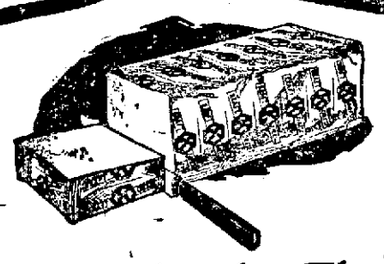
MANILA GETS ON A BUDGET BASIS

MANILA.—After drifting for more than ten months, working on the figures of the previous year's budget, the city of Manila today has an approved budget for what remains of the present fiscal year.

At the last election, the voters of Manila returned to office a city council composed entirely of democrats. The mayor, Ramon Fernandez, was a nationalist. The two departments could not agree on various items of the budget and as neither would compromise, the result was the city drifted along from month to month, using the previous year's budget. As a result the work of every department of the city's government has been seriously handicapped.

After the resignation of Mayor Ferdinandez and the Philippine cabinet because of differences with Governor General Wood, the chief executive appointed a democratic mayor, former Governor Rodriguez of Rizal province. This removed the friction between the city councilmen and the mayor's office and the long delayed budget was passed without difficulty.

Airplane is being used in Canada to help prospecting.



You'll Like the Flavor

The one thing about Kraft Cheese likely to please you most is its wonderful flavor. This delightful flavor is produced by the exclusive Kraft method of blending—blending choice country made cheese that can meet the Kraft standard of quality. By blending, the flavor is always under control. That is why the flavor of Kraft Cheese is always the same—always delicious.

Four varieties: American, Pimento, Swiss and Brick, sold by the slice, pound or loaf.

THE TEST OF VALUE

The selection of Rugs for your home has such a vital bearing upon the beauty, the comfort and even the future happiness of the home as to warrant critical care and analysis of values.

We have always prided ourselves on goods of dependable quality at prices to suit the purse of the average customer. We have always endeavored to feature goods backed by a national reputation for worth. We invite your inspection of the merchandise in this store, both in regard to quality and price. No wool in the whole world makes such wonderful rugs as that grown on the backs of the hardy sheep of Asia, and many a ship from the Orient brings its quota of precious stuff to the rug mills that supply the BARRON WILTONS.

The name BARRON'S guarantees long and satisfactory service.

Must We Cancel Her War Debts to Save Europe?

The war debts of the European Allies to the United States amount to $11,328,066,747 and the billion and a half dollars of interest overdue on these debts brings this total to nearly thirteen billion dollars—about $116 to every man, woman and child under the Stars and Stripes. Secretary Hughes has stipulated that the proposed committee of international financial experts to investigate Germany's resources must not bring up the question of inter-allied debts. On the other hand, France insists that the allied debts are at the root of the issue and there is a body of public opinion in that country that evidently expects America to cancel its debt to France. In THE LITERARY DIGEST this week, you will get a good impression of the way France, Britain, and Belgium look upon their debts to this country, and American public opinion upon America's stake in the reparations dispute. Other striking news-features in the November 17th DIGEST are:

Dehearsting the Tammany Tiger

Read what leading newspapers say about the jolt given the political aspirations of William Randolph Hearst in the New York state election.

Organizing a Union for Bank Clerks

Labor leaders out to unionize the white-collar workers in New York banks.

The Klan's Challenge and the Reply

How leading Catholic, Jewish, and Negro authorities answer Imperial Wizard, H. W. Evans, of the Invisible Empire.

Net Result of Lloyd George's Visit

"David, the giant kidder, came to America and he saw but it can not be said that he conquered," according to one editorial observer.

How to Test Yourself For Your Real Job

"Fun From the Press" in California Theaters

RELATIVE to Fleischer's Cartoons, which are the newest addition to "Fun From the Press." Judging from the comments of our patrons and the manner in which the cartoons are received, I think they are a welcome addition to what has been for years one of the bright spots on our California Theater program. We thank you for your efforts toward the improvement of what we might call the hors d'œuvre of the films. J. A. PARTINGTON.

French War Hogs

AMERICAN government and politics are not immune from graft. There has been notable instances. Pennsylvania was one state, Missouri another. Tammany hall has always been charged with permitting its favorites to make dishonest money through patronage. Wisconsin took some pride in building one of the country's greatest state houses without a single dollar of graft ever turning up. No doubt America had some graft during the war. There was Hog Island, and there is the case of the Morses. The aeroplane scandal will not soon be forgotten. Today "teapot dome" is in the front rank of instances that look bad. Mr. Fall, of the Harding cabinet, may go into history as the late President Harding's Mr. Wickersham.

Perhaps there is little consolation in comparing our own evils with greater evils in other countries, but at least we may want to know that graft is not a peculiarly American vice. Cables during the week announced the declaration of Deputy Inghels, of France, that of one hundred billion francs paid for restoration of war losses under the reparations arrangement, twenty billions have been stolen. He points to many instances where a trifling loss to an individual was settled by the government at a tremendous figure. One piece of property worth 5000 francs, struck by a shell, was replaced with a million dollar structure. Similar instances too numerous to recount are mentioned. In many cases the amount paid by the government was far in excess of the already excessive claims. The worst of it is that the small peasant whose property was despoiled is still waiting for his compensation, while the larger claims have been paid. Although the French government may justify the policy of paying the bigger indemnities first, on the ground that in that way factories would be replaced and industry resumed for the benefit of the entire country, there will be a nice squabble over the greed with which many so-called French patriots made a grab-bag of reparations. Not all the war hogs in the world hail from Hog Island.

The Real Fight

TREES shed their leaves in autumn to adapt themselves to winter drought rather than to winter cold. Trees could easily grow a protective covering or overcoat for their leaves. But water freezes in cold weather and, not enough being available for leaves, the trees shed the leaves.

A similar shedding takes place in tropical regions having alternate wet and dry seasons.

Also, the scarcity and small size of trees in the far north are due to moisture shortage rather than low temperature.

These facts are from a lecture by Prof. George E. Nichols, botanist at Yale.

Trees have a phenomenal ability to adapt themselves to their environment. A beech tree growing in a clearing has plenty of light but less water than it would have in moist woods. So it increases its water-absorbing roots and grows thicker "skin" on its leaves to decrease the amount of water lost by transpiration.

Now take a beech tree growing in dense forest. It has plenty of water, but not enough sunlight. To overcome this difficulty, it stretches higher, trying to rear itself above the other tree-tops. Also, it makes its leaves larger, which increases the leaf surface exposed to the sun's light.

A million books could be written without any repitition about the ability of plant life to adapt itself to its environment. So with man. It is within our power to adapt ourselves to all changing conditions and new problems. The wise are never discouraged. Knowing a solution exists, they seek and usually find it.

Improved

THERE is a noticeable improvement in the congestion along down-town curbs since the police department began its belated enforcement of the one-hour parking rule. It is now usually possible to find a space to dock a car during a shopping trip, a convenience greatly appreciated by the public and, one does not doubt, by the merchants, too. We do not take seriously, and we hope the police will not, the roars from occasional offenders whose machines have been tagged for violation. While most of these are probably unwitting violators of the rule, their excuse is small now that every Main street lamp-post has its one-hour warning, and all of the show-windows in the zone display the Automobile Club warning cards. Anyhow, there is the ordinance, and ignorance of the law excuses no one. When ruffled feelings have a chance to subside after a wigging from the traffic cop, or perhaps even a fine, most of us will be able to see and to appreciate the improvement which has been effected by enforcing the law. The congestion remains a difficult problem—probably it always will be so because of our narrow streets—and such measures as can be taken are imperative. Next year there will probably be a few hundred machines more than this year fighting for right of way down-town and places at the curb. There must be some sort of order and discipline, or the loop district will ultimately be next thing to a madhouse. The parking restriction is working fairly well, and undoubtedly will work better when all drivers get into the spirit of the rule and obey it as a matter of course, as they do the rule to keep to the right. In essentials it is no more than a kindred rule of mutual convenience and courtesy.

Tom Sims Says:

In Ye Olden Times

TEN YEARS AGO TODAY

Edon B. Bummert, four-year-old son of Mr. and Mrs. W. F. Bummert, has returned from the woods near Winter, Wis., where he succeeded in bagging a 150-pound deer.

Fred Shumway, Charles Jolivette and William Perkins spent today near West Salem hunting. They returned with forty squirrels, five rabbits and ten partridges.

The annual business meeting of the B. R. T., 176, was held last night at Fjelstad's hall and these officers elected: President, J. A. Peacock; vice president, F. Struman; chairman, W. R. Wood; secretary A. T. Boyle; assistant secretary, Lewis Jojade; agent for official publication, L. F. Bright; conductor, J. L. Reynolds; warden, A. P. Taylor; inner guard, William Hurley; outer guard, J. Laylin.

TWENTY YEARS AGO TODAY

An ordinance presented by Alderman Houska at the last common council meeting makes it a penalty for the street railway company to operate any cars without conductors to assist passengers to their destinations.

W. G. Koplin has sold his farm near Viroqua and will make his home in La Crosse.

Members of the W. B. U. football team have agreed to disband.

Louis Frohmelt of this city shipped as second mate on the "Little Rufus," a new boat which stopped here yesterday on its way south.

On petition of thirty freeholders of Stoddard, incorporation papers for that village were filed in circuit court November 14 and a president, clerk and trustees will be chosen at an election soon.

These marriage licenses were issued yesterday: Mike Zansky of La Crosse to Clara M. Olson of Winona; Otto Stindl to Miss Dora Wehrs; Herman Wenike to Amanda Koch; John D. Richmond to Sophia Perus, and John Murphy to Kate Hiler, all of La Crosse.

THIRTY YEARS AGO TODAY

A Ladies' society and a Young Ladies' Guild were organized at St. Peter's Episcopal church on Kane street the evening of November 13. For the Ladies' society these are the officers: Mrs. Elisiah Harrington, president; Mrs. C. L. Lien, vice president; Mrs. George Reed, secretary, and Mrs. Wm. Jameson, treasurer. For the Guild: Mrs. I. Houlgate, president; Miss May, vice president; Miss Nellie Curran, secretary, and Miss Lelia Jameson, treasurer.

An addition is being built to St. Paul's Universalist church.

The lady clerks at the Trade Palace have organized a cinch club and will begin a series of games the evening of November 20.

The tank on the McMillan building that used to hold water to run the elevator was removed yesterday.

The new repository of the La Crosse Wallis Carriage company on North Third street was opened yesterday.

Last evening Miss Mattie E. McDonald, daughter of Dr. H. J. McDonald, and John A. Bayer, second teller in the Batavian bank, were married at the home of the bride, 403 South Tenth street. Mr. and Mrs. Bayer have gone to Chicago on their h-

"Know thy Neighbor As Thyself"

By CORONA REMINGTON

"If you didn't intend to marry me, why did you let me hang around all this time? Why did you encourage me in so many different ways and then—then throw me down? Elizabeth, you can't mean it—you can't really mean it. You must have known how I've loved you all this time and that as soon as I had enough money to think of marriage, I intended to propose to you. You must have known it."

James Mannington's voice broke and he rose quickly and went over to the window; for an age he stood motionless, staring out at the lengthening shadows. The girl remained where she was seated, inert, stunned, scarcely breathing, her face white and tense.

At last he turned and came back. "Is it final, Elizabeth?" he asked more quietly.

"I—I'm afraid it will have to be, Jim," she answered in lifeless tones.

"Then, good-by." He stood before her a moment and was gone.

He went blindly down the front steps and up the unpretentious street, head down and shoulders stooped.

He had not doubted for a second that his proposal would be accepted. His mind traveled back over the years they had known each other. Such companionship and happiness, and now all was a thing of the past! No more little dinners or walks together, no mere confidence. Over, over, everything over. The words ran through his mind and seemed to grow into a deafening chant as he stumbled along the street.

After walking for some time he came upon a crowd standing before a church. Just as he came up, the doors opened and the people began moving into the building. Aimlessly he followed them; at least it would be a place to sit and rest, and what difference did it make where he went or what he did? He flung himself wearily into a seat in the rear and soon forgot his surroundings.

He did not go in, in the hope of gaining spiritual help and comfort, but more as a sleep-walker wanders around apparently without reason. At last the evangelist took his place in the pulpit and the services began. Tall and spare in build, but with a face alight with inspiration and sincerity, he gripped his listeners from the very beginning—every one, except Mannington.

"My subject tonight will be: Know thy neighbor as thyself and then must surely love him," he announced in smooth cultured tones. Mannington listened for a moment then was lost again in his own gloomy thoughts. Only when the sentence was repeated did he remember where he was. Again and again the minister brought in the words and each time they irritated Mannington more.

Know thy neighbor as thyself! He knew Elizabeth, he reflected bitterly, and he didn't care to know any one else as well again. He was through—through with the whole world—with all humanity and more especially women. He would go to the wilds and live with nature and the furred and feathered creatures of the forest.

The evangelist was an optimistic fool; the better you knew a person the less you could love him. Familiarity breeds contempt was a far better text for a sermon. He wanted to get away, he was so tired of hearing that smiling, smooth-faced idiot make insane remarks.

What did that man know about life that he could stand up and preach to those with real experience? An insane desire to jump up in his seat and tell him what he thought took possession of Mannington.

How the congregation would twist around and gape when he started up his competition line! For a second a queer smile twitched around his lips, but soon faded as he went back to his own reflections. Finally it was over and he followed the crowd out into the street again.

During the next few days he went through his regular routine at the office as naturally as if nothing had happened and was surprised to find that he was not suffering. He was simply numb. Everything seemed remote and unreal and dreamlike. Elizabeth was a dream, his love for her another, and the final scene with her a third.

One morning a the following week Mannington found a letter awaiting him at the office addressed in a handwriting that he failed to recognize. Mechanically ripping it open, he scanned the lines.

"My dear James (it began):

"You will be surprised to hear that Elizabeth has been very ill. When I returned last Tuesday evening from Evangelist Horton's meeting I found her with a high temperature and delirious. She talked about you constantly and from what she said I concluded that you and she had quarreled. I thought perhaps if you were here you could soothe her and straighten things out, but the doctor advised against it.

"Another thing that I discovered from her rambling talk was that she refused you because she felt she had no support me. I had no idea of the situation, and had never before realized how totally I had depended upon her and what a burden I have been. My own poor little Elizabeth! Ever since I found out the situation I have been trying to get [illegible] and at last been assigned the duties of house mother at St. John's [illegible] tory.

"For the past two days Elizabeth has been improving rapidly, but when I told her what I had done and asked to send for you she promised to let me. It seems that you said some rather bitter things, and I believe if you came she would forgive and forget.

"When I think how wonderful she was I feel that Dr. Horton was right when he said 'Know thy neighbor as thyself and thou must surely love him.'

"Will you come?

"Sincerely,

"ADELINE F. FOSTER."

As Mannington jumped for his hat and made a dash for the street, thoughts and ideas went whirling through his head. Once more vitally alive and quivering in every nerve he summed up the situation in a few telling words. His little Elizabeth had tried to sacrifice her life happiness for somebody else and he had scolded her and said harsh, cruel things to her and she had taken it all without a word of reproach. Then the evangelist's text flashed across his mind again and he agreed—agreed with his whole heart and soul as he prayed that his girl would forgive him.

ADVENTURERS START TRIP NO WHITE MAN HAS YET COMPLETED

Word is Received from "Narwhal Expedition" Which Started Over a Year Ago

HONOLULU.—By The Associated Press.—A breath of romance—limpid lagoons—boiling through the ocean, with all sail set, at the speed of an average steamer—life among the natives in a far-off South sea isle.—of the beginning of a 600-mile trip up a river on which many white men have set out, but none returned—is contained in a letter received here from Myrry N. Fay, commander of the "Narwhal Expedition," an adventurous group of men, who sailed their own small vessel out of San Francisco bay almost a year ago to cruise among the South seas, drifting from port to port with whatever cargo might be picked up.

The miscellaneous cargo, including a large shipment of dynamite, that the Narwhal carried from San Francisco, was delivered safely at its South sea destination, according to the letter, which was received by A. P. Taylor, Honolulu newspaperman and author.

The letter was dated "Latitude 15.54; longitude 180, July 27, 1923," and spent more than seven weeks reaching its destination.

"The 'Narwhal Expedition' is still on the map, or rather moving around on the map," it said. "Right now we are passing through the channel between the island of Thikombia and Vanua Levu of the Fiji group. We also are crossing the 180th meridian, where we jump a day.

"We had a wonderful time in the Samoan islands. I think I saw as much of them as any white man has ever seen. While at Upolo, I went on a trip with the New Zealand governor and visited native villages along the shores. We were feted in each village. We lived in their grass huts and I was able to get pictures of some of their celebrations that have never been photographed before. I stayed in Apia several weeks and went to Pago Pago where I made two trips—one to the Manua group where we lived with the natives for a week. The Samoans on these islands appear to be far ahead of the others, because the white man very rarely gets to Manua.

"Our next stop will be Noumea. We will spend a week or two there getting the final touches for the real adventure. For we intend to go from there to New Guinea where we hope to ascend the Fly river for about 60 miles. We realize that we are taking a long chance, as five expeditions have gone up this river, and not a man has returned from them. We hope to benefit by their mistakes. We have a very fast whale boat and we are guarding ourselves against the diseases that play havoc with the white man in these countries and we will always be careful. About the time this letter reaches you we will be starting up the river and I feel sure, with the precautions that we are taking, that we will get through safely.

"These South seas are surely the place for a fellow to get Romance under his skin. It seems to be a sort of disease that every one gets down here. This old sailing vessel of ours only adds to that romantic feeling that steals over us. Right now we are boiling along as fast as the average steamer goes, all sail is set, and every time a gust of wind hits us, the old ship gives a graceful swoop that sort of reminds me of a race horse.

"The enthusiasm that prompted us to go on this trip has only been intensified by the wonderful experiences we are getting."

Fay said that the Narwhal expected to be in Honolulu on its return trip to the mainland in seven or eight months.

LONDON.—Sergeant William Brereton, 83, has just resigned from the government's service after 70 years. All but 21 years of that time was spent in the army. He first donned the king's uniform when he was 14.

DEVOTES LIFE TO RAISING FLOWERS FOR NEEDY SICK

Spreading of Cheer and Sunshine Greatest Service Belief of Muskegon Man

MUSKEGON, Mich.—By The Associated Press.—Believing that the greatest service any person can give to his fellowman is that of spreading cheer and happiness, A. H. Allen, the largest producer of gladioli in western Michigan, has consecrated his life to the raising of flowers for free distribution to hospitals, charitable institutions and public buildings in order that he may extend his message of human kindness to all who look upon his offerings.

About fifteen years ago Mr. Allen became imbued with the idea of serving humanity. Always a lover of flowers, he decided to use them as his medium for showing his love for others.

The Allen farm has eleven acres devoted to the culture of gladioli. During the flowering season the tract is a riot of every color and color combination conceivable. In all there are 97 varieties of this popular flower, each with its distinctive coloring and its own characteristics.

Mr. Allen, during the flowering season, comes down town each day with a supply of blossoms, makes his rounds, and leaves bouquets at the hospitals and in other places where he believes they will be appreciated.

"The sight of flowers is the greatest tonic for persons who are ill or discouraged that the world ever has produced," Mr. Allen said. "I have proof that flowers do speak a language of gladness. Every morning when I come into Muskegon with an armful of flowers strangers speak to me on the street. After I have delivered the blossoms and am empty handed no one pays any attention to me. It was the flowers that the strangers spoke to before."

On the Allen farm this year are 120,000 gladioli bulbs in blossom. The grower is at work on several new varieties, several years being required to develop a new species.

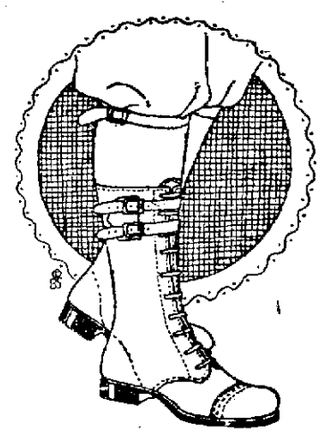
NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, C. L. Johnson, 609 W. Lake St., Chicago, Ill. is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency and without experience or money make $250 to $500 per month.



Protection For the Boys

FAVORITE with every boy are these sturdy Hi-Cuts. They will withstand considerable wetting, and outwear any other style of boys' shoe made. Best ever for winter wear. 10-in. height, **$3.00** up per pair .....

12-inch height, $4.50.

These Boots are guaranteed all solid leather.

BOOK WEEK IS OBSERVED AT THE NORMAL

Students Enthusiastic Over Program Presented by Model School Celebrating "Good Book Week"

A very unique program was presented yesterday morning at the La Crosse Normal school assembly hour when the pupils of the Model school performed in accordance with National Book week. The program was arranged by Mrs. William Laux who was assisted by the critics from the various grades.

The children were all elaborately costumed and took their parts very well. The program was given in conjunction with the study of good children's books.

The first number on the program was a puppet show, a dramatization of "Chicken Little" by the first grade. This was followed by the story, "The Boy and The Goat" by the second grade marionettes. Both numbers were generously applauded and well liked by the audience.

The third number on the program was one of the most original ever seen. Children from all the grades participated and depicted some of their favorite story book characters. The costumes worn were elaborate and made the pageant a very pretty number.

Those taking part from the kindergarten were coached by Miss Florence Foxwell. The characters were as follows: "Wee Willie Winkie," Janet Ruggles; "Jack Be Nimble," Roscoe Gould; "Jack and Jill," Phyllis Lucht and Thomas Klick; "Queen of Hearts and Knave," Mary Byers and Bobby Franz; "Bye Babby Bunting," Patricia Holmes; "Bo-Peep," Patty Ann Cameron; "Boy Blue," John Pappas, and "Mistress Mary," Anne Erickson.

Miss Alice Gordon, critic, arranged the characters for the first and second grades. Those that participated from the first grade were: "Little Jack Horner," Sam Fellows; "Japanese Girl," Kathryn Miller; "Boy With the Goat," Peter Pappas, and "Eve," Emily Anne Fairchild. The pupils from the second grade were: "Snow White and Rose Red," Jean Higbee and Deborah Levenstein; "Little Boy Blue," Joseph Leeder; "Little Bo-Peep," Bernice Winter; "Fairy," Mary Lou Hovind; "Little Red Riding Hood," Alice Frazee, and "Mary, Mary, Quite Contrary," Helen Albrecht.

The third and fourth grades were coached by Miss Faye Griffith, critic. The children included: "Dearest, Lord Fauntleroy's Mother," Nisra Stone; "Roland, the Noble Knight," Billy Irvine; "Robin Hood," William Case; "The Calico Clown," John Lewis; "Dutch Twins," Miriam Fairchild and Dorothy Poland; "Mexican Twins," Mary Frazer and Tom Rooney; "Godmother," Patricia Toland; "Cinderella," Mary Higbee, and "Editha's Burglar," Mary Adkins.

Miss Mary Beall Sheridan coached the members of the fifth and sixth grades. The following took part: "Three Pirates," Nathaniel Hartwell, Tom Hancock and Frank MacDonald; "Toby Tyler," Joe Higgles; "Daniel Boone," Horace Miller; "Indians," Betty Brindley and William Reich; "Colonial Maid," Corrine Swan, and "Chinese Maid," Arley Rahn.

The seventh and eighth grades presented groups of characters from well known books. They were coached by Miss Emma Hendepp. "Treasure Island," Robert Henshen. Thorlof Gunderson and Walter Wittich; "Little Women," Helen Stewart, Betty Harrier, Mary Louise Wheaton and Clara Kroner; "Don Quixote," Marshall Stenlson; "Tam Sawyer and Huckleberry Finn," Walter Woods and Sigmund Smidahl; "Uncle Tom's Cabin," Aloise Clark, Emily Anne Fairchild, Glenola Wilkens and Margaret McKenzie.

"Ten Minutes by the Clock," a short one act play, was cleverly presented by the members of sixth, seventh and eighth grades. The following had roles: "Queen," Mary Loosey; "King," Edward Loosey; "Gypsy," Glen Morgan; "Queen's Page," David Wood; "Pom Pom, the Butler," Edward Fairchild; "Cook Bitter Batter," Robert Bangsberg; "Pages," Josephine Woods and Argyle Scott.

The program was repeated this morning for the benefit of parents and friends that wanted to see it. A more complete pageant of book character was given at this time.

Mrs. O. T. Erhart has returned to her home in Minneapolis, having been here to attend the funeral of her mother, Mrs. Mary E. Loughan.

Many of the newest dress materials have designs pressed into them, and give a brocaded effect.

Some Rambles With Artists of Wisconsin

Editor's note: One purpose of the art department of the Wisconsin Federation of Women's clubs is to further an appreciation for the artistic treasures which Wisconsin men and women have contributed to the world. Through the courtesy of this department the La Crosse Tribune will publish some article regarding the life and works of a Wisconsin artist in order to aid in familiarizing the public with the value of the contributions made by these men and women.

"One should trust to the impression of one's eyes, and not be carried by another's impressions or ideas. . . . It is not the biggest that is best in art—but rather the simple, sympathetic, poetic bits of nature that make one feel and see the beauty and the good in all things. That, to me, is the best in art. . . . The artist who works in a simple, soulful way—touching our hearts—is the one who should arrest our attention and be enjoyed."—Francesco Spicuzza.

Francesco Spicuzza was born in Sicily, but he has lived in Wiscosin ever since he was eight years of age. This is the tale of how from a fruit peddler on the streets of Milwaukee he made his own opportunity, and achieved fame as one of the greatest of American painters. He has known the gnawing of hunger; but he has known romance, too, and he says that the one and only real love affair of his life has been the making of him. He admits that without the encouragement his wife brought to him he would never have returned to the struggle for recognition as a painter.

Spicuzza early felt the urge to creative artistry.

"The first time I remember drawing," he once said, "was when I was five years old. You know my father was a fisherman and we lived in Termini, Emeresi, Sicily. I used to play on the sea shore and as I watched my father putting out to sea in his boat with its white sail bobbing over the blue water I wanted always to make pictures of him. My only brush was a stick and my only canvas the sand, but many and many are the etchings I made of his boat and him, and it always made me unhappy that what was in my mind's eye did not appear more exactly upon the sand."

Coming to this country with his parents when eight years of age, Francesco often wished that he might go to school as the other children did. It was necessary, however, that he help to earn the family income and it was not until a philanthropic Milwaukeean took an interest in the youngster and aided him in attending the grade schools. Ten years later, the same altruist, attracted by the youth's attention to art, arranged for him to spend all of his time at a school of painting. This was opposed by his parents, but as he has once said: "When Mr. Marling paid me liberally for painting a portrait of his father and I received a cash premium for a picture exhibited at the state fair, their opposition was less—but they were still mortified at the thought that a member of the family was too lazy to do a man's work and would rather dabble over brushes and canvas."

* * * *

He obtained work at a lithographer's and this he continued after marriage. Then one day he was laid off, and with a growing family, found it necessary to return to fruit selling to make living expenses. His story continues: "I tried selling fruit by myself borrowing my brother's horse when he could spare it, but times were hard and I never made more than $1 a week. All the time Amber kept urging me to rent a studio. At last I agreed with her that we might as well starve altogether as to slowly starve on the dried herring and black bread which had been our food for weeks. I went to the agent of the University building and asked for a studio. He gave me a room for $15 with the understanding that if I made good he would get his rent, and if not, I would paint for him if he wanted me to, to make it up.

Then I had luck. A friend of mine ordered a portrait and paid me $25. I paid my studio rent and Amber was joyous over the $10 we had to spend. The friend's brother was so pleased that he, too, ordered a picture for $25, and I was mighty glad to get the money. At the end of the first month, I felt safe in expending money for a chair, and I certainly enjoyed that chair. From that time on, I began getting orders."

Shortly afterwards a portrait which he had painted of his mother was hung in the international exhibition of paintings in New York. The same portrait was honored again in the annual Pennsylvania exhibition of the same year.

* * * *

Spicuzza's style is that of the poet and dreamer. His subjects are imaginative. His touch is delicate and tender. His color sense is exquisite and gives him the power to catch the opalescent gleam of water, the glint of sunshine, the soft shadows of early morning or the mists off twilight, and imprison them upon his canvas. His work is of the soothing, appealing, mysterious beauty that haunts some music and seems close of kin to both music and poetry.

His masterpiece is generally considered to be the oil picture "Wading." This work has received the praise of the most prominent art critics in the country, and has won medals at many exhibitions. Here is what the American Art News has to say of it: "Wading is instinct with gladness. The little figures of the wading children bathed in golden sunlight, the rich, warm tones of sea and sky, all proclaim the young Wisconsin artist a painter, par excellence of youth and joy. Brilliant color, good drawing and a fine sense for composition are striking qualities in this picture."

New Costume of National Woman's Party Exhibited at Capitol November 18

By CAROLYN VANCE
(Special Correspondent, Tribune)
Copyright, 1923.

WASHINGTON.—Purple, white and gold costumes, worn by members of the National Woman's Party, soon will flood the streets not only of Washington but of every city where there is a branch of the organization.

Remember the Red Cross costume and head dress worn by war workers? Well, the woman's party plans to make its costume as ibiquitous as that, thereby attracting attention to their equal rights campaign.

But, as was to be expected, a turmoil is being raised over the design. The amplitudinous members and the slim sisters are at loggerheads. Something that will hide both curves and angles is demanded. The logical solution, it seems, would be straight lines. But the artistic members want flowing lines—something greeky.

"That would be fine for a pageant," cry the practical members, "But who would have the nerve to wear such a thing on the street? We must have something tailored."

"Tailored!" cry the idealists. "Bah! How can anything tailored express the ideals of this organization?"

Pattern Shown

A tentative pattern will be shown for the first time November 18 at the memorial service here opening the equal right campaign. The costume, as it has been evolved so far is a modification of the cap and gown worn by college students. Not quite so voluminous however. The head dress will be more like that worn by Red Cross workers. It has been developed in nuns veiling, with the insignia of the National Woman's party worked in the three colors, on the band that covers the brow.

The gown may be made of silk, velvet or any other material but velvet is favored because of the rich folds into which it naturally falls. A belt will be worn loosely just below the waistline. This design, it is believed, will be becoming either to a chubby person like Mrs. O. H. P. Belmont, president, or a slender woman like Alice Paul, vice president of the national woman's party.

No doubt Miss Paul will choose from the three colors, the purple. Indeed, most of her wardrobe now is in the purple and mauvetenes. It is hard to speculate on just what shade Mrs. Belmont will wear. The gold, really a brilliant yellow, would be quite unsuitable for a person of her age. Maybe she will play safe and wear the white costume.

Delegation See President

Two hundred members will make up a deputation that will see the president November 17. But they will not wear the costume this time. President Coolidge, no doubt, will be quite overwhelmed by the ladies even though they don't wear purple, white and gold costumes. For this will be the largest delegation he has yet received.

Led by Mrs. Belmont, the women, from all parts of the United States will lay before him their reason for demanding an amendment to the constitution giving women full equality with men.

Will the president get chummy with the deputation and wax loquacious? Or will he maintain the attitude of the Sphinx on this question?

President Favored Cause

Alice Paul has interviewed Calvin Coolidge on subject of women's rights twice before. During the campaign for ratification of the suffrage amendment she visited the then governor of Massachusetts. He was very cordial and declared himself to be quite favorable to their cause. Again, when the campaign for ratification reached a climax over the Tennessee vote, she visited Mr. Coolidge hedged on the subject declaring that what he thought was not important since he was merely a nominee for vice president.

With these incidents in mind, the ladies are quite at sea as to how he is going to accept the plea of their deputation.

HENS and PULLETS LAYING?
If not, better give them
Conkey's Laying Tonic, as it helps the birds through the moult and gets them ready for business.
IF they have Colds, Roup, Cholera, etc., give them Hoeschler's Poultry Germicide in the drinking water and the birds will doctor themselves and get back in the pink of condition.
IF you have pullets, then leg band them now, as later you will not be able to tell them from the hens.
IF your hens have lice dust them with Hoeschler's Concentrated Louse Powder.
IF your poultry house is full of mites clean it out and then spray from top to bottom with Conkey's Noxicide or Carbola.
IF you have to break the ice in the hen's drinking dish then get one of our Non-Freezing Fountains.
IF you wish to preserve eggs right use Hoeschler's Egg-Keeper.
IF you need Poultry Remedies or Supplies then come to headquarters.

BANK ROBBERS AT HOLCOMBE ESCAPE WITH $3,300 LOOT

Force Way Into Vault and Strongbox With Aid of Acetylene Torches

NEW CRIME WAVE GAINING MOMENTUM IN NEW YORK

Faribault Postoffice Broken Into Early Friday

HOLCOMBE, Wis.—With the aid of an acetylene torch, bandits early Friday forced entry to the vault and safe of the State Bank of Holcombe and escaped with about $2,000 in cash and $1,300 in negotiable bonds.

The robbery was discovered by the janitor when he arrived at the bank this morning and he at once spread the alarm.

The robbers used acetylene torches to force their way into the vault and strong-box. All safety deposit boxes were rifled.

Although no one heard the bandits it is believed they worked for several hours before leaving the building, which is said to have been entered by forcing a window.

Thaddeus Loiselle, the janitor, reported the robbery to A. J. Edminster, president of the bank, at 5:20 a. m. He organized a posse and set off in pursuit of the bandits' auto, tracking it through the fact that it had a tire chain on only one rear wheel.

Crime Wave Sweeps Gotham

NEW YORK.— New York's latest crime wave continued Friday when bandits smashed a plate glass window in the fashionable Fifth avenue shop of Hickson, Inc., and escaped in an automobile with $50,000 worth of furs.

The fur robbery occurred while four watchmen were in the store. The thieves sent two ash cans crashing through the window. The watchmen were unable to reach the street in time to get a description of either the bandits or their car.

Gopher P. O. Robbed

FARIBAULT, Minn.— Three hundred dollars in stamps and $17 in cash was obtained by robbers who early Friday looted the local postoffice. An attempt to blow open the postoffice vault failed. The explosion tore a large hole in the floor in front of the vault.

MELLON URGES CUT IN TAX ON EARNED INCOME

(Continued from page one)

an income of $12,000 a year and living nicely on that. The $200,000 will never be destroyed. It can be passed on for generations and each year if properly invested it can earn six per cent. But the lawyer or the doctor or the actor or the high grade salesman or any one else who by years of study and investment of time and money in the getting of a good education finally manages to reach a point in life where $12,000 a year is earned can only have that income during the years of his efficiency. When his energies decline, his practice, if he be a doctor for instance, declines and he can not pass on his reputation to another. His capital is his mental ability.

Farmer a Wage Earner

Mr. Mellon says that such individuals should not be in the same category as the persons who live on invested funds. There are persons, of course, who work for a salary or wages but who have saved enough money to invest in real estate or small businesses. The proposed law would require the taxpayers to show on their return how much of their income is earned and how much is unearned or due to investments. Thus a farmer who works on his own farm is to be considered as a salaried worker or wage earner for he is entitled to call his income earned. But a farmer who owns another farm and hires others to work for him is engaged in a business just as is a corporation and does not enjoy for that part of his income any twenty-five per cent reduction. The head of a business or partner who works in a business is entitled to the twenty-five per cent reduction. The absentee owner however, who lives on the work of others and on the profits made by the capital he invests is not entitled under the proposed plan to any twenty-five per cent reduction.

But even the persons with unearned incomes will get a considerable reduction over previous years. Thus at present there is a normal tax of four per cent on the first four thousand dollars on everybody's net income after deductions have been made. This rate will be reduced to three per cent for everybody whether receiving earned or unearned incomes. There is another tax of eight per cent on all net incomes above four thousand dollars. This will be reduced to six per cent.

In computing taxes under the proposed Mellon plan, the taxpayer would make out his return taking the usual deductions and calculating the normal taxes and surtaxes and then he would calculate his total tax. If however, all of his income is entitled to be classed as "earned" he then takes a twenty-five per cent reduction on his total tax. If only a part of his income is earned he calculates a twenty-five per cent reduction on that portion of his tax which is based on the amount of income earned.

By far the larger number of tax payers making personal returns are in the class of earned incomes. The tax payers who have the other type of incomes would receive their benefits through the reduction of normal taxes and by a general scaling down of surtaxes.

CITY IS GETTING POOR SERVICE ON DREDGE ASSEMBLY

Machine Ready for Operation When Transformers are Installed

That the Midwestern company of Chicago, from whom the city of La Crosse purchased a dredge this fall, is giving poor service relative to assembling the machine, is the opinion of the board of public works.

The Chicago concern has employed an assembly man here the past month, but the fact that he has not been given authority to make any expenditure necessary to placing the machine in order without first communicating with the Chicago office, has resulted in much time lost.

The machine is now complete and the transformers are in storage at one of the railroad freight offices awaiting authority from Chicago to pay freight charges before the apparatus can be put into operation, it was said.

ATTACK BLUE SKY LAW IN TRACTOR CASE AT OSHKOSH

MADISON, Wis.—Constitutionality of the Wisconsin Blue Sky law was argued in the state supreme court Friday. In the case of Arthur C. Klein versus the Oshkosh Tractor company and the state railroad commission. The case was brought about in an application to compel the railroad commission to make public records of the tractor company.

Attorneys for the plaintiff claimed the law is unconstitutional because it attempts to delegate judicial power to the commission, because it violates amendment fourteen to the federal constitution and is "an attempt to assert government power for private purposes." State's attorneys denied these allegations.

JAPAN GIVES U. S. FIRMS BIG CONTRACTS FOR LUMBER

WASHINGTON, D. C.—Contracts have been awarded in the United States for 97,150,000 feet of lumber by the Japanese government for use in building dwellings for Japanese homeless in the earthquake area, it was announced by the Japanese embassy on Wednesday. The contracts are with the Douglas Fir Exploitation and Export company, representing 108 west coast mills, and with Brattlie Brothers' Mill company, of Ridgefield, Wash. No figures were given out of the amounts involved.

JOHNSON URGES CO-OPERATION

ANNANDALE, Minn. — Senator-elect Magnus Johnson spoke at the Armistice day program here. Senator Johnson touched on several topics, principal of which were the teaching of brotherly love and the golden rule to the children, more pay for the former service men and the necessity for more and better co-operation among all the people as a means of eliminating war.

CARD OF THANKS

We, the undersigned, wish to thank the many relatives, friends and neighbors for their kind assistance and sympathy shown us during our late bereavement, the illness and death of our beloved wife and mother. Especially do we thank Rev. J. W. Bergholz for his kind words. Also the choir and all those who sent floral offerings. The four sons and two son-in-laws acted as pallbearers.

Mr. Otto Dasse, Sr., Mr. and Mrs. Fred Dasse, Mr. and Mrs. Richard Dasse, Mr. and Mrs. Wm. Dasse, Otto, Jr., and Martha Dasse, Mr. and Mrs. Harry M. Olson, Mrs. F. O. Dasse.

Women Rout Burglar After Bazaar Funds

MINNEAPOLIS, Minn. — Several women who came to the aid of the church custodian aided in routing a robber who attempted to steal receipts of a bazaar at the Central Lutheran church Thursday night, the police were told. Mrs. J. A. O. Stub, wife of the pastor, was one of the women. The robber escaped without obtaining any loot.

CHICAGO WORLD'S FAIR PROMOTER DIES IN WEST

CHICAGO, Ill.—Colonel H. B. Bardt, professional exposition promoter, who helped stage the world's fair here in 1893, is dead in Seattle, according to word received here. He was 71 years old and had been associated in many large exposition enterprises.

STOCK MARKET CLOSE

The closing was heavy. Lowest prices of the day were recorded in the late afternoon, although partial recovery took place just before the close from the usual week-end short covering. United States Cast Iron Pipe broke two points despite the resumption of dividends on the common stock. Sales approximated 800,000 shares.

BAR POLITICAL TALK BY GOVERNOR BLAINE IN SCHOOL BUILDING

JANESVILLE, Wis. — Governor Blaine will not speak in the high school auditorium here Friday night.

By a resolution of the Janesville board of education, the Eagles lodge here was permitted to have the use of the new high school auditorium for the governor's address, which was to be non-political. When the restrictions were communicated to the governor, he refused to accept the terms and this morning George Esher, chairman of the committee, notified the board that Governor Blaine would not speak Friday night. A theater has been secured and the governor will talk Monday night. Strong protests had been presented to the school board against permitting the use of the high school by the governor if he talked on political matters.

Resents Restraint

MADISON, Wis.—Governor Blaine declared Friday that he declined to speak at Janesville tonight because of the "restrictions and restraint" placed on his address. He said that by the actions of the Janesville board, an effort was being made to limit his address to abstract subjects.

SUBPOENA JEWETT TO GET KLAN'S RECORDS IN WALTON TRIAL

OKLAHOMA CITY, Okla.—By The Associated Press.—Defense counsel in the impeachment trial of Governor J. C. Walton, announced Friday that it was prepared to go to Atlanta to obtain the records of the Ku Klux Klan in Oklahoma if a subpoena issued Thursday for N. C. Jewett, grand dragon of the klan in this state, fails to produce them.

Jewett was instructed to appear before the court with all Oklahoma records of the organization, including a complete list of the membership of the realm. The subpoena had not been served at noon Friday. D. B. Howard, Jewett's office manager, was given the subpoena and instructed to deliver it to Jewett.

During the martial law regime in this state it was reported the klan records here had been removed outside the jurisdiction of the Oklahoma National guard, and it was presumed they had been taken to Atlanta.

STATE TO COLLECT TAXES DUE FROM ICE CREAM PLACES

MADISON, Wis.—A state-wide campaign to collect taxes claimed to be due the state from cities and towns for the operation of soft drink parlors will be instituted. State Treasurer Solomon Levitan announced Friday. Mr. Levitan estimated that $100,000 is due the state from cities and towns in such taxes.

Under the Severson act passed by the 1921 legislature, treasurer Levitan said municipalities are required to pay the state ten per cent of taxes collected for operation of soft drink establishments. It is said the tax has not been collected heretofore. Mr. Levitan said he will demand payment of the tax for this year and back taxes also.

ORPHANS TO SEE JACKIE COOGAN ON SATURDAY

Kiddies at St. Michael's orphanage are going to have a real matinee party Saturday, when they will be guests of the La Crosse Theaters company at the Majestic, where they will see Jackie Coogan in "Circus Days." Automobiles have been donated to convey the children to and from the theater, and they will be treated to candy given by the Funke Candy company, peanuts donated by the Bodega and pop-corn given by John Haritos.

B. F. HOLMES IS AWARDED DAMAGES IN AUTO SMASH-UP

B. F. Holmes was awarded a verdict for $75 damages in his suit for damages brought in circuit court against Anton A. Guilliume. The jury returned a special verdict which was opened Friday morning. The jury found that Mr. Guilliume was wanting in the use of ordinary care in operating his automobile. They also found that his car was damaged to the extent of $10. The collision occurred at Fifth and King streets.

BORROWED STILL BREWS NOTHING BUT TROUBLES

OSHKOSH, Wis. — When Louis Neubauer, worker in a sash and door factory, stayed home to experiment with the making of whisky in a borrowed still, he brewed himself nothing but trouble. After the still had been put in operation, the house took fire causing damage of about $500. A policeman living near by went to the scene. Neubauer gave bonds for $800 and his examination was set for Nov. 20. He admitted using the still, which he said had been loaned to him and that it was his first experience as a moonshiner.

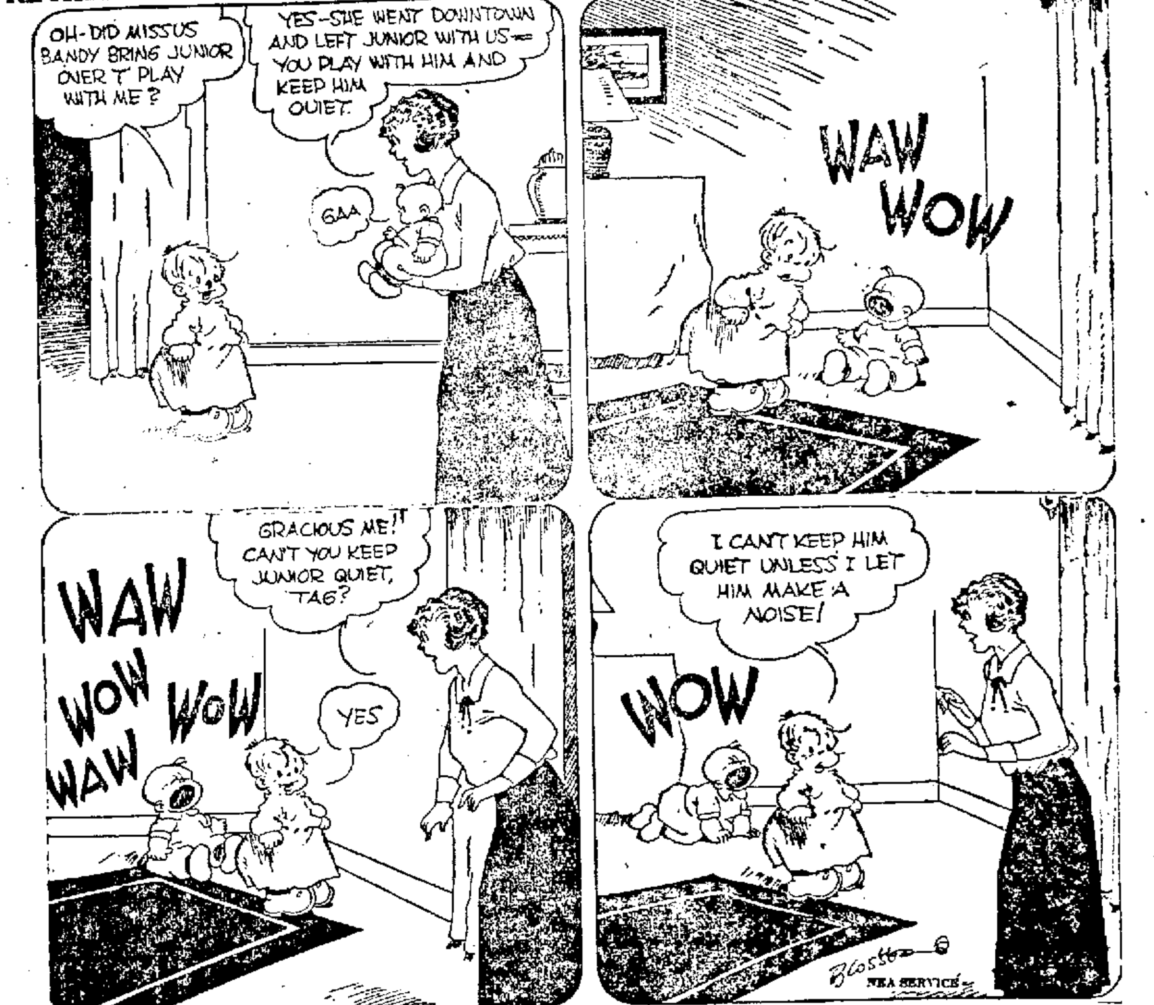
FARMER KILLED IN DYNAMITE EXPLOSION

IRON MOUNTAIN, Mich.—Louis Sjostrom, 65, a resident of this city for thirty-five years, was instantly killed in a barn on his farm at Aurora, Wis., three miles from here, when a stick of dynamite, in which he was placing a cap preparatory to blasting stumps, exploded.

A few moments before the explosion his wife went to the barn and called him for dinner and as she entered the house the explosion occurred.

Mr. Sjostrom is survived by his widow and four children.

FRECKLES — KEEPING HUBERT QUIET — BY ALLMAN



PARENTS-TEACHERS AT HOGAN SCHOOL ELECT OFFICERS

The Hogan School Parent-Teachers' association held its first meeting of the present school year in the gymnasium of the school Thursday evening, November 15th. The meeting opened with the singing of several songs by the pupils of the sixth seventh grades to a pleased audience.

D. H. Shepardson, principal of the school read an interesting letter from Mr. N. M. Stormont, the president of the association, telling what had been accomplished by the association and projecting plans for the future. Mr. J. K. Verhulst presided in Mr. Stormont's stead. George Krause gave an interesting talk on a "Warming Station" for the Hogan Play Center. He also expressed the hope that all walks in the Hogan district would be kept free of snow during the coming winter.

Plans were then discussed for the annual social of the school to be held Friday afternoon and evening, November 23rd.

The following officers were elected for the ensuing year: President, N. M. Stormont; vice president, J. K. Verhulst; secretary, Mrs. F. H. Burgess; treasurer, Miss Susan Campbell.

An open session of the school in which recitations were conducted in all branches of study was held before the business meeting of the association and was well attended by appreciative parents and friends.

WOMEN PLEAD NOT GUILTY TO CHARGE

Two colored women, Mrs. Sally Reese and Mrs. Helen Tolbert, 111½ South Second street, pleaded not guilty to a charge of disorderly conduct in police court Friday morning. The case was set for 2:30 Friday afternoon.

SEEK SUCCESSOR TO PALMER IN SECOND WARD

Second ward politics, always lively and at times stirred to a white heat, is considerably agog over the resignation of Alderman Harry Palmer, handed in on Thursday and which will be presented to the common council next Tuesday night. The problem confronting the ward now is the question of a successor to Palmer.

The latest political dope is to the effect that the council will accept the resignation but will take time to select a successor in an endeavor to chose someone who will meet the wishes of the ward and be indorsed at the spring election. The appointment at the present time will probably be for a term to end next spring when an election may be held in the ward in connection with the judicial election.

George Allen, business man 121 Pearl street, has filed a petition containing 25 names for the aldermanic vacancy. Frank P. Cook, expert accountant, and an old resident of the ward, also is being mentioned as a candidate.

A new name, that of George Hall, who operates a barber shop on Third street, appeared in the list of possibilities on Friday. He has been in business in the ward for 35 years. However, it is said that a question may be raised as to his qualification for the post in point of legal residence. He is not now living in the ward.

Mayor Verchota said on Friday that the resignation of Alderman Palmer would probably come before the council at an adjourned meeting next Tuesday evening. At the same time, he said, the council would probably elect a successor and order a special election for next spring. The man chosen by the council would sit until the special election, to fill the unexpired term.

Nearly half the people in Japan are reached by electric lighting service.

PUBLIC MEETING ON 1924 BUDGET IS HELD TONIGHT

Meeting Called for 8 O'clock at Logan Junior High School on North Side

THE first of a series of two public meetings to be held prior to the adoption of the 1924 budget will be held at the Logan Junior high school tonight at 8 o'clock, it was announced Friday.

The second meeting will be held Monday night at Central High school auditorium.

Principal H. G. Hayden of Logan High school will be chairman of Friday night's meeting.

The program will include an address by Mayor J. J. Verchota; reading of budget by Louis Robinson, chairman of the ways and means committee; presentation of the school budget by Superintendent of Schools B. E. McCormick; vocational school budget by John Coleman, director; public library budget by Miss Lillian Borreson, librarian, and north side improvement by Alderman P. W. Mahoney.

HAWKEYE BUTTERMAKERS WIN NATIONAL CONTEST

MADISON, Wis.—Iowa buttermakers are declared winners in the national winners in the national butter scoring contest conducted by the National Association of Creamery Buttermakers, which met here recently. H. C. Larson, president, announced here Friday. Although the national contest banner was awarded to Minnesota buttermakers during the convention and they were announced winners, a recheck of results showed that the Iowa contestants had a lead of slightly over one per cent, Mr. Larson said.

The Vital Food---

Fine in Soups

All the Nourishment of the Wheat

A food for every member of the family.

Here is a macaroni that boils TENDER in five minutes. It is simple: Boil MACRONETS five minutes, drain, blanche with cold water, prepare with cheese, tomatoes, dried fruits, peas, meat left-overs or fish, bake a few minutes and you have a dish of rare deliciousness.

JUNIOR RED CROSS DOING GOOD WORK IN BADGER STATE

Children Assume Task of Arousing Interest of Elders in Annual Roll Call

ORGANIZATION HAS NEARLY A HUNDRED THOUSAND MEMBERS

Prepare 5620 Christmas Boxes for Children Overseas

MILWAUKEE, Wis.—Wisconsin's Junior Red Cross is doing extensive work in arousing the interest and enthusiasm of the people of their communities in anticipation for the final windup of the seventh annual Red Cross roll call, now in progress all over the country, according to Red Cross officials here.

The members of the Junior Red Cross which has an enrollment of 93,941 in this state have prepared 5,620 Christmas boxes for children overseas, in stricken countries.

The organizations in the other states plan to send similar boxes to Europe and it has been estimated that 100,000 will be sent before the end of the month.

Poland is to receive the largest number of these gaily colored boxes, 12,000 in all, according to reports. Austria, Hungary and Jugoslavia will each receive 10,000 boxes; Bulgaria, Rotheria, France and Roumania each 5,000; Belgium and Italy, 3,000 each; Albania and Montenegro, 500 each, and to each of the Baltic states 2,000.

In Wisconsin, as in other states, the Junior Red Cross works all year around in helpful deeds of many kinds, officials state. In Florence county they made garments for children who otherwise would have been unable to attend school. Juniors of county juniors helped to make playground apparatus; furnished milk to 350 underweight children per month and sent clothing to the near east.

In Marathon county the Juniors raised $2,000 by salvaging waste paper and donated the money to furnishing milk to undernourished children. Trouble in Monroe county had a Kiddie Kop at the fair. Shawano county Juniors collected magazines, sent cards and calendars for hospital use.

In Polk county the Juniors sent gifts and potted plants to the shell shocked veterans at the psychiatric institute at Mendota.

The Juniors in Juneau county performed excellent work at completed equipping a camp for crippled children. According to Red Cross officials here all other counties in the state have reported increased activities in their respective Junior Red Cross organizations since the roll call began, and all indications point toward a gigantic success.

GREETINGS!

Let happiness reign, for we're soon to receive a visit from Mlle. Lucy de Slewinska, one of the leading lights among the artist colonies in Paris. She's famed for her "personality portraits."

RUHR OCCUPATION DIVERTS AMERICAN ORDERS ELSEWHERE

Orders from U. S. Filled by Manufacturers in Unoccupied Germany

ESSEN—Many orders from United States firms which have been held up because of numerous complications arising out of the Ruhr occupation have been duplicated and filled by wholesalers or manufacturers in unoccupied Germany, according to industrialists here. This applies chiefly to tools, cutlery, smaller machinery, spare parts, nuts and bolts, and a certain amount of dress goods materials.

Some good shipments from the Ruhr reached United States ports during the summer, but only a very small percentage of the orders which were on hand when the occupation began. The chief obstacle of getting finished materials out of the district has been the refusal of the German wholesalers and manufacturers to pay the export tax imposed by the French and Belgians as part of their plan to collect reparations. The Germans refused to pay this tax on their goods, contending that, in the first place, any such cooperation with the occupation authorities had been prohibited by the Berlin government, and on this account it would have been a violation of the program of passive resistance.

The textile center of Crefeld had on hand a lot of special orders for dress goods which the American importers found impossible to have duplicated in other parts of Germany, because the necessary machinery was not available. These goods were intended for use last spring and summer and have been reposing in warehouses all these months. Dealers say the goods will be just as serviceable and fully as fashionable next summer.

According to word received from the United States, shipments from the Ruhr to American ports, by irregular routes perhaps, have been carried on more or less ever since the occupation began, by one way or another which no one here will take the responsibility of explaining. These shipments have been in small lots, it has been suggested, this being deemed advisable because of the "difficulties" of getting the cargoes over the frontiers. Just how this game has been carried on, and by whom, has never been brought to light, but several smugglers' agents are reported to have cleared small fortunes in the transactions.

PRISONER, IN ADDRESS, FLAYS COURT SYSTEM

SIOUX FALLS, S. D.—A crowd of several thousand people heard George Egan, who will enter the state penitentiary here in a few days to serve a two year sentence, deliver what he termed his farewell address at the Coliseum.

In his speech he attacked the courts of South Dakota and declared his sentence was the result of a plan conceived years ago when he first entered the state from Iowa. He said that at that time a delegation of lawyers called upon him and advised him to leave.

Egan has been an unsuccessful candidate for governor of the state four times. He has twice been disbarred from the practice of law. His penitentiary sentence follows his conviction on a charge of making false returns to insurance companies.

THIEVES LOOT AUTOS AT IRON RIDGE PARTY

IRON RIDGE, Wis.—While a party was being held at the home of Mrs. O. F. Quandt here, thieves succeeded in getting away with most of the blankets, robes and overcoats that were left in automobiles near the house. All the blankets and robes were valuable, many buffalo robes being included in the list. Dodge county officials are working on the case.

The highest percentage of child labor in the United States is employed in the silk industry.

There are more than 300,000 motor drivers in Chicago.

Automobile tires cost little more than half the prices charged in 1916.

Now is the time to fight constipation with Bran—Start to-day!

Don't give the diseases that follow in the track of constipation a chance to lodge in your system! Get after constipation with nature's greatest helper—BRAN, Kellogg's Bran, cooked and crumbled—because it is ALL BRAN and because it will give you permanent relief from constipation! It is scientifically prepared to relieve suffering humanity from constipation and it will do that.

Bran's action is wonderful. It sweeps and cleanses and purifies. It knocks out the dangerous toxic poisons and frees the system from pollution! Try Kellogg's Bran for a week. Eat it regularly—two tablespoonfuls each day; as much each meal in chronic cases. You will be astounded at the difference in your feelings!

Kellogg's Bran should not be confused with common bran which is unpalatable and difficult to eat. Kellogg's is cooked and all ready to serve and really delicious. Eat it as a cereal, sprinkled over your favorite hot or cold cereal or cook or mix it with hot cereal. In the latter cases add two tablespoonfuls for each person.

Do you realize what Kellogg's Bran can do for you and for your family; do you realize that it will keep sickness away; that it will put every one on a new health footing; that it will free you all from pills and cathartics?

Kellogg's Bran is particularly delightful made in raisin bread, in macaroons, popovers, muffins, etc. Recipes are printed on each package!

You will say that Kellogg's Bran is a blessing to humanity.

All grocers sell Kellogg's Bran!

COEDS DISAPPROVE LIQUOR BUT WON'T BOYCOTT DRINKERS

Wisconsin University Girls Appeal to U. S. Authorities to Take Action

MADISON, Wis.—Although 8,000 University of Wisconsin co-eds registered unanimous disapproval of drinking and appealed to federal authorities to take action against intoxication and liquor, they refused to sanction a proposed resolution prohibiting association with any men who drink, at a compulsory meeting held here Thursday night.

"The women of Wisconsin go down on record as opposed to drinking," declared the resolution passed. "They shall sign a petition and present it to the federal authorities in order to have definite action taken against intoxication and its sources in the city of Madison."

"How can we tell if they have been drinking?" was the universal chorus when a resolution prohibiting co-eds from dating with men who drink was proposed.

Louis Jacobs, president of the Girls' Government association, who called the meeting, declared that unless conditions were checked the enrollment of women would be considerably lower next year. The Daily Cardinal, student publication, declared editorially after the institution's home-coming football game that "the annual drunk is over."

ANTI-SALOON LEAGUE POLITICAL PARTY IS DECISION OF COURT

ALBANY, N. Y.—The Anti-saloon League of New York is a political party, and as such should be compelled to file with the secretary of state a statement of receipts and expenditures in political campaigns.

In reaching this decision Thursday the appellate division of the supreme court sustained the ruling handed down by Supreme Court Justice Staley on March 13 last.

OFFICER ACQUITTED OF NEGLIGENCE IN HONDA NAVY WRECK

SAN DIEGO, Cal.—Captain Robert Morris, who commanded destroyer division 32 on the night of the Honda wreck, September 8, was acquitted of charges of negligence in suffering vessels of his organization to go aground in a verdict read by the judge advocate of the general court martial.

WOMAN ASKS FOR ALIMONY AFTER HUSBAND IS DEAD

LOS ANGELES, Cal.—Whether alimony goes beyond the grave or terminates automatically with the life of the former husband who pays it, is a question the superior court is asked to decided in a suit filed Thursday by Mrs. Willie O. Parker against executors of the estate of Francis M. Parker, her former husband.

Parker died several months ago, ten years after the judge who granted Mrs. Parker a divorce ordered a certain portion of his property set aside to pay the divorced wife alimony for the rest of her life. Now, according to the complaint, the executors of Parker's estate have refused to pay Mrs. Parker further alimony. She asks judgment for $59,000.

Wrinkles Smoothed Away Like Magic by New Cream

Marvelous Discovery Guaranteed to Remove Every Line and Wrinkle

THOUSANDS of women, whose beauty was once spoiled by unsightly lines and wrinkles, now possess entirely new complexions—complexions wonderfully fresh and youthful, and free from even the slightest trace of wrinkles.

These women owe their present youthful beauty to a wonderful new discovery—a discovery which smoothed away every line and wrinkle as if by magic. This new treatment is called Domino Wrinkle Cream. It works on an entirely new plan. It goes right to the cause of wrinkles, removes it, and as it does so each wrinkle is gently lifted away. It's almost miraculous. Even after the first few days the face appears years younger looking.

Why let wrinkles add age to your face when they can now be banished so easily? Domino Wrinkle Cream is GUARANTEED to banish every line and wrinkle—or your money instantly refunded. A special bank deposit of $10,000 protects this guarantee so you risk nothing in trying it. Get it today. Sold at all good drug and department stores. Moe and & Co., Sloleander's Drug Store, Hebbard's Drug Store, Gorder's Drug Store, Boerner's Drug Store, Hoeschler Bros., Wm. Doerflinger Co.

DOMINO WRINKLE CREAM

ALL-WET JURY IS PICKED FOR TRIAL OF BOOZE CASE

CHICAGO, Ill.—Before an admittedly "all-wet" jury, witnesses, including millionaires and politicians are to take the stand Friday as the government opens its testimony in the trial of the Grommes and Ulrich corporation, and ten defendants in connection with an alleged liquor distribution when the company was dissolved.

Killer Whale Destroys Fur Seals

More than 75,000 fur seals are reported to have been destroyed annually by the killer whale which preys upon the fur seals of the Bering sea. As a consequence the government has been urged to pay a bounty to check the depredations of this "wolf" of the northern Pacific seas.

SOLVING THE BREAKFAST PROBLEM

Breakfast is the big problem these chilly mornings when the children must get off to school and Daddy must make a quick getaway to office or store. The problem is easily solved with Shredded Wheat Biscuit. It is ready-cooked and ready-to-eat. Two of these crisp, tasty little loaves of baked whole wheat with milk make a nourishing, satisfying meal—and they are just as good for lunch and dinner as for breakfast. For a warm, nourishing dish pour hot milk over the Biscuit, adding a little cream and a little salt.

ILLEGAL SEINER IS CAUGHT AFTER 3 MONTHS' CHASE

Eli Hill Arrested by Sheriff Lund and Supervisor Markle; Fined $50

Detective work on the part of Supervisor Markle of the town of Shelby, Sheriff Lund and some members of the Mormon Coulee Gun club landed Eli Hill, wanted since last August on a charge of illegal fishing, in the tolls of the law. Hill when arraigned in county court Friday was fined $50 and costs of $5.16.

Late in August Conservation Warden Gautsch, aided by the Mormon Coulee Gun club members, descended on a trio of fishermen who were seining in the waters of the Mississippi river in the town of Shelby. One of them, Charles Ristow, was arrested. The other two, Eli Hill and A. C. Larson, fled to Iowa. Ristow was arrested by Mr. Gautsch and was charged with seining game fish, fishing after hours and fishing with a seine that had smaller meshes than fixed by law.

Wednesday night Sheriff Lund and Supervisor Markle obtained information that Hill had been in the city for a week and that he could be found in the south end of town. Sheriff Lund and Mr. Markle hit the trail and after several hours' work Hill was rounded up. When arrested Hill said his name was Hall and that he didn't know anything about any illegal fishing charges that had been made against him. At the police station later in the evening he admitted that he was Eli Hill. Larson is the only one of the trio to remain at liberty.

RICH LOOT FOUND IN BAGGAGE OF POLISH "COUNT"

LOS ANGELES, Calif.—Ninety thousand dollars worth of rare tapestries and rugs, diamonds valued at $15,000 and nearly $36,000 in currency, including thirty-five $1,000 bills were found on the person and in the hand baggage of Alberto Sichofsky, self-styled Polish count, when he arrived here from Nogales, Arizona Thursday night.

Sichofsky was met on his arrival by federal agents and deputy sheriffs, the latter seeking to incarcerate him in the county jail for commitment to San Quentin on a sentence of from one to ten years for grand larceny, and the former desiring to question him in connection with smuggling operations.

His trunk is expected to arrive Saturday, federal agents said, and will be searched for other valuables whose customs status it is desired to ascertain.

CONVICT KILLED

SIOUX FALLS, S. D.—J. C. Farley of Java, S. D., an inmate of the state penitentiary here, was killed late Thursday afternoon by the caving in of a ditch being dug within the prison walls for a water main. Four men were working in the cave. Two were severely injured and the fourth escaped without injury.

URGES CO-OPERATION OF BUSINESS MEN IN BADGER EXPOSITION

MILWAUKEE, Wis.—Every business man and manufacturer in Wisconsin should participate in the Wisconsin Products Exposition to be held in Milwaukee, Dec. 1 to 8, in the opinion of Former Governor E. L. Philipp, president of the Milwaukee Association of Commerce, who has addressed a letter urging cooperation by every member of the association of which he is the head.

In part, Mr. Philipp's letter says: "The second annual Wisconsin Products Exposition represents a statewide effort on the part of representative industrial and agricultural organizations in the state to bring about real cooperation between the members of these groups for the purpose of bettering industrial conditions in Wisconsin. The exposition this year will be remarkable in many ways and will present a real picture of Wisconsin's diversified productive power. It is attracting nation wide as well as statewide attention. Every merchant and manufacturer should ask himself 'can I afford not to participate in this movement or cooperate in this affort?'"

Home Made Cough Mixture Considered Best

Spreads Over Membrane, Soothes, Heals and Stops Cough Almost Instantly.

Costs But a Trifle

Make your own cough syrup in two minutes at home if you want the best.

Simple coughs, or stubborn coughs, it doesn't matter which, this home made mixture will stop them quicker than any expensive cough syrup you can buy ready made.

It's fine for chest colds too and for acute nasal catarrh.

Get from any druggist one ounce of Parmint (double strength) - to this add a little granulated sugar and enough water to make one half pint. —that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

And remember—any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

BUILDINGS SHRINK AS COLD WEATHER CONTRACTS METALS

Skyscrapers Inch and half Shorter During Cold Weather Say Engineers

NEW YORK. — Towering steel structures in New York will be approximately one and a half inches shorter this winter than they were in August. The shrinkage of the sky scrapers will not be noticeable to pedestrians, nor to the residents of other cities where the change already is taking place, but to the structural and technical engineers of steel the fact will be known in figures.

A study made by the building planning service of the National Association of Building Owners and Managers, covering thermal effects upon buildings, made public here, shows that the Woolworth building, the Metropolitan tower and the Equitable building, among New York's highest structures, will have been shortened from one and two-tenths to one and a half inches.

The figures were arrived at by calculating the expansion and contraction of steel according to the formula familiar in every physics laboratory. The contraction and expansion of steel for each Fahrenheit degree change in temperature is only .0000677 inches, but when this figure is multiplied by 9110 inches in the Woolworth building (not counting the basement and sub-basements) it is shown that each degree change makes a difference of .1061 inches in the structure. With the Metropolitan building's 8400 inches, each degree change makes a difference of .0568 inches and with the 7200 inches in the Equitable building (counting from the sub-basements to the roof) the probable limit of temperature change is .0487 inches.

According to the estimate of Clarence T. Coley, operating manager of the Equitable building and former president of the National Association of Building Owners and Managers, the probable limit of temperature change is about 25 degrees.

"Because of the expanding and contracting of the steel in high buildings it is important that the mass of the building be kept as near a uniform temperature as possible, to prevent the steel from contracting and expanding within minimum limits, said Mr. Coley. "The limits are probably 55 degrees on the hottest summer day and 68 degrees on a cold winter's day, where the building is adequately heated.

"Should the buildings be allowed to cool off on Sundays and holidays to a temperature of 40 or 50 degrees it can be seen that the contraction would be much more marked and the bulging off of plaster would be excessive. Generally it can be assumed that the temperature variation in the buildings is about 25 degrees. In a building such as the Equitable which is 600 feet from the roof to the sub-basement, the expansion between 60 and 85 degrees would be 1-2 inches, which variation must be followed by the brick work, plaster, verticle piping, elevator guide rails, etc."

If the buildings should ever be allowed to cool to the freezing point the contraction of the Woolworth building would be 3.2 inches; the Metropolitan building would shorten three inches and the Equitable building would be 2.6 inches shorter than the normal height in mid-summer, the statistics reveal.

COTTON AT NEW HIGH

NEW YORK.—December cotton sold at 34.60 on the opening call Friday, an advance of 70 points and a new high figure for the season.

SPECIAL VERDICT IS RENDERED IN HIGHWAY CASE

A special verdict was returned by the jury hearing the case in circuit court of Ingebret Settinsgrad, a town of Washington, against the county board highway committee, for damages to his farm alleged to have resulted from the relocation of County Trunk Highway G. The county offered a settlement of $400. The jury found that 23-10 acres of land on the Settinsgard farm taken to relocate the road was valued at $250, that the remainder of the farm was damaged by the relocation of the road and that the damage to the land was $500. Settinsgard was represented by A. T. Twesme and D. M. Langve. District Attorney Gordon appeared for the county board. Amond Akbrossen, who sued the county along with Settinsgard, settled his case after it had been started Thursday morning.

SIX STATE NORMAL TEAMS IN ACTION FOR FINAL GAMES

MILWAUKEE, Wis.—Six Wisconsin Normal school teams will go into action Friday afternoon in the final games of the season.

The Whitewater Normal team will be the guests of the Milwaukee Normal on a soggy field, with every indication favoring the visitors for a win.

At Platteville, the Normal team will entertain La Crosse Normal in a game which promises to be a nip and tuck affair, while River Falls will take on the strong Superior Normal school. The game will be the last of the season at River Falls and is being played Friday to enable the players on the two teams to witness the Minnesota-Iowa game Saturday.

BORAH DECLARES FOR REDUCTION IN FEDERAL TAX

WASHINGTON. — Reduction of taxes at the next session, is the "plain, immediate and imperative duty" of congress, Senator Borah, republican, Idaho, declared in a statement published Friday, in which he asserted the evil effect of the present burden both economically and morally, demanded a downward revision.

What he saw as the present policy of republican organization leaders in congress to delay a reduction of taxes must certainly prevail, Senator Borah said, unless those favoring reduction go to work on an affirmative program. If they do not, he declared, in all probability the next session will see an increase instead of a decrease in public expenditures and taxes.

That Accounts For it

Mother—Johnny, there were two pieces of cake in the pantry. Now there is only one. How's that?

Johnny—Well, ma, it was pretty dark, so I expect I didn't see the other piece.—Puck.

RECKLESSNESS OF MOTORING PUBLIC DESPAIR OF ROADS

Railways Trying Every Possible Means of Cutting Down Increasing Crossing Deaths

TOPEKA, Kan.—By The Associated Press.—Railway crossing accidents, increasing at an average of 100 per cent a year, represent one of the most serious problems now confronting American railroads, according to Seth Hale of Topeka, chairman of the safety section of the American Railway association which comprises virtually all the railway companies in the United States. A "Careful Crossing Campaign" of four months has just been completed by all the railroads.

"Railroads are eagerly trying out every imaginable means of averting these appalling disasters," said Mr. Hale, "but the persistent disregard of the automobile driving public for its own safety has caused some of us almost to despair. The remedy seems so simple, yet meets such open violation. Epitomized, it is just three words, Cross Crossings Cautiously.

"The railroads are convinced that, within their own organizations, 'safety first' education gets results. Deaths of employes on duty have been reduced from 4,554 in 1907 to 1,446 in 1921. This result has been achieved notwithstanding the much larger force of employes during the year 1921.

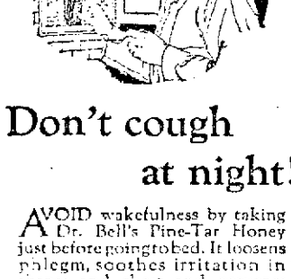
"In 30 years our country's population has increased 68 per cent. In that same period railroad highway crossing accidents have increased 345 per cent, and injury cases 652 per cent. These disproportionate increases are due entirely to the use of the automobile. In five years 9,101 persons were killed and 24,208 injured at railway highway crossings in the United States.

The fact that at least 50 per cent of automobile drivers do not look both ways upon approaching a railroad crossing has been demonstrated in a number of tests conducted along the Santa Fe railroad recently, Mr. Hale pointed out. A count made at a city crossing produced the following results: Out of 250 cars checked, drivers of 98 did not look in either direction; 49 looked to the right only; 17 looked to the left only; one stopped and looked in both directions, and 78 looked each way without stopping.

Instances of automobiles being driven into a passing train are almost as common as those in which the automobile is struck by a train, Mr. Hale declared. A typical list compiled by the Pennsylvania railroad shows an increase of 19 per cent in crossing fatalities in July this year as compared with July a year ago.

TRADE WITH LATINS GROWS

WASHINGTON — Uncle Sam's trade with his Latin American neighbors has shown a decided gain this year. It will total approximately $2,500,000,000 by Dec. 31. It amounted to about three-quarters of a billion last year.



Don't cough at night!

AVOID wakefulness by taking Dr. Bell's Pine-Tar Honey just before going to bed. It loosens phlegm, soothes irritation in throat and chest and prevents the exhausting coughing spasms. Made of just the medicines that up-to-date doctors recommend—combined with the old-time favorite, pine-tar honey. Its taste is pleasant, too! Keep Dr. Bell's on hand for all the family.

All druggists. Be sure to get the genuine.

GIRL FLEES TAYCHEEDAH BUT LIBERTY IS SHORT

FOND DU LAC, Wis.—A 19 year old Racine girl whose name is withheld, made an unsuccessful effort to escape from the Taycheedah reformatory.

Three hours after she had been taken to the reformatory by Racine county officials she opened a window in a room on the second floor and clad only in a night robe and woolen socks, leaped to the ground below and made her way into the village of Taycheedah. Chilled by exposure, she sought shelter at a Taycheedah home, where she was later taken into custody.

According to Racine county officials, placing the girl in the Taycheedah institution was a last resort, as she has been in five different institutions before and escaped from all of them.

PRISONER CALLED AS JUROR

RAPID CITY, S. D.—"How did you get here?" inquired State's Attorney Dean of a man who appeared for examination as a juror.

"I just came," was the reply.

"Well, you go back to jail," said the prosecutor.

The man was "Racehorse" Smith, who had been serving a term for intoxication, and was served with a summons for jury duty while cutting the courthouse lawn by a officer who was unfamiliar with his status.

OBSERVE CENTENARY OF COMING OF FIRST NORWEGIANS TO U. S.

Nation-wide Celebration of Coming of Norwegian Mayflower Planned Next Year

MADISON, Wis.—A million and a half Americans of Norwegian descent are planning a nation-wide celebration of the hundredth anniversary of the coming of the Norwegian Mayflower to the United States.

The celebration will take place some time in 1925 but the date has not been definitely fixed. J. D. Anderson, former U. S. minister to Denmark, a resident of Madison, is taking a leading part in the planning of the anniversary celebration.

The date will probably be fixed at either July 4, the day the first Norwegians set sail for America or Oct. 9, the day they landed, Mr. Anderson declares.

It was in 1825 that America received its first Norwegian residents. At that time 52 Norwegian people banded themselves together to found homes in the New World. By the time the sloop on which they made the trip, called the Constitution, landed at New York, there were 53 passengers and it is estimated that there are now 1,500,000 Americans of Norwegian blood in the United States.

MAN, 82, CAMPS IN WOODS

SIOUX FALLS, S. D.—"Life in the open, with hard work, for health, happiness and longevity," is the prescription of H. A. Fisher, 82 years old, who is camping in a tent in the woods along the Sioux river. He has set himself the task of cutting 100 cords of firewood for a farmer.

Even before the little red schoolhouse disappeared from this region, Marquette had founded a reputation for fair dealing and a high quality cement. So that during the past thirty years it has been Marquette's privilege to participate in the fireproof construction of our public school buildings. In the past two years there have been over forty schools constructed with the help of safe, durable concrete made from Marquette Cement. When you use cement, or when cement is used for you, look for the name Marquette on every sack. There is a Marquette Dealer near you. You will know him by the sign he displays.

Baffle "Old Man Winter"

He exacts a heavy toll from automobiles. His favorite plan of attack is to prevent the forces of lubrication from functioning.

His success or failure depends entirely upon the quality of lubricating oil that you use. If you use inferior oil you can't beat him; your car will be hard to start; batteries and starter will be strained severely; the frictional and bearing surfaces of your car may lock; you will be wasting power because your pistons are not sealed —but if you

Use

Polarine THE PERFECT MOTOR OIL

Made in Five Grades

then you will have every frictional surface covered with a cushion of oil.

Your car will start readily, especially so if you use Red Crown Gasoline.

You will have power and you will not waste any, for Polarine seals your pistons against loss of power.

Polarine is designed to render a superior service — it flows freely at extremes of temperature—it has the correct viscosity—it will not break down—it will function always.

Consult chart on the left for the correct grade of Polarine for your car.

Drain your crank case every five hundred miles and refill with Polarine—it is the essence of economy.

ALL PLANES DWARF IN COMPARISON WITH BIG BARLING BOMBER

Martin Bomber But a Pigmy Beside New Plane; Has Wing Spread of 120 Feet

DAYTON, O.—The Barling bomber is the largest airplane. The Martin bomber, the largest airplane in use by the air service before the advent of the Barling is a pigmy compared to it. The Barling soon is to make a tour of the country. The exact itinerary has not yet been announced.

The Barling has a wing spread of 120 feet, a height of 28 feet and an overall length of 65 feet.

The gasoline capacity is six tons, or 2,000 gallons. The oil capacity 1,-856 pounds or 181 gallons.

Six Liberty engines are required to power the Barling.

The minimum crew required to operate the Barling consists of four men, but provision is made for a crew of eight.

The weight of the airplane loaded will exceed 40,000 pounds. Specifications require that not more than 5,000 pounds of bombs shall be carried at one time, but were anything so large as a 10,000 pounds bomb developed, the Barling could lift it and fly for two hours.

Specifications required a flying speed of 90 miles per hour. On her initial flight the Barling accomplished 96 miles per hour without difficulty.

With 2,000 gallons of gasoline, 12 hours flight at full speed can be made. With engines throttled or some of them cut off completely, the time of flight can be correspondingly lengthened.

A total of seven guns operated from five positions or cockpits cover the whole field in which enemy aircraft may approach. The gun defense may be augmented for day flying, in case the airplane is used for day as well as night bombing, for which it is planned.

The tail is a biplane structure, forming two planes 25 percent larger than the main wings of the DH-4 airplane. There are four equal size rudders.

The Barling has eight wheels with the 60x12 inches, the largest ever made. Two wheels with smaller tires are on a truck further forward under the fuselage to prevent the airplane from nosing over. A radio set has been installed in the bomber.

Money's Worth

There's at least one toy balloon that was worth all its buyer paid for it. At a fair in Pulham, England, the balloon was released together with numerous others. It was picked up later at Willingdon Downs, Sussex 60 miles away.

RED BEAUTY

She's the fairest of 'em all—the most beautiful Indian girl in all Mexico. Although her good looks have brought her many prizes and probably many proposals, Maria Biliana Tribe is content to be with her chickens on her own little ranch.

300 ONEIDA CLAIMS AWAIT SUIT DECISION

ONEIDA, Wis.—Three hundred "mixed bloods" of the Oneida tribe of Indians will file claims against the United States government for their share of proceeds of lumber sales at Keshena if Alexander Bosaw, one of them, is successful in securing his claim of $1,000 filed recently and now under advisement at Washington. Bosaw, who is being represented by Dennison Whelock, Oneida Indian attorney, claims the secretary of the treasury has refused to pay him his share of proceeds accruing from lumber sales, amounting to approximately $1,000.

GIRL NEAR DEATH IN FIRE

GIBBON, Minn.—Viola, the 11-year-old daughter of Mr. and Mrs. William Steihm, was probably fatally burned while attempting to light a fire with kerosene.

GOLFERS PAST HALF CENTURY MARK SCORN WARNING OF DOCTORS

Foursome of Middle-aged Cleveland Men Scoff at Statement Golf is Dangerous

CLEVELAND, Ohio.—By The Associated Press.—The warning of London physicians that persons 50 years old or more are endangering their lives by playing golf is scoffed at by Cleveland's "Indian Scouts" foursome, believed to be one of the oldest active quartets in the world, who may be seen regularly on the golf links here. Their combined age is 227 years. None of them started playing golf until he was past the half century mark.

The foursome is composed of Charles W. Burrows, 74; G. T. McIntosh, 75; J. W. S. Webb, 69, and A. W. Neale, 59. All are prominent business men here and may be seen on the links "every Saturday and a couple or three times a week," as one of them put it.

When they are "on their game" the foursome play in the low eighties or nineties. They have been playing together for about 12 years.

"I don't know of any pastime more pleasant, more healthful and more invigorating for a man between the ages of 60 and 80," Mr. Burrows said. "Of course a man who allows his muscles to become soft and flabby from lack of exercise, smoking, overeating and drinking and then goes out on the course and overtaxes his strength is in danger, but moderate golf means health for a man past 50 who keeps himself in condition.

"Walking around the course by yourself or even with three friends would be too monotonous. Playing golf, you exert yourself for an instant with a stroke drive and then you rest while the others tee off. If you get tired you can sit down and rest, and you're resting in the open air.

"Golf holds your interest. You're continually trying to better your game. You forget the poor shots and try to remember some of the good ones. The four of us play about the same game, but we're continually trying to beat each other, and that's where a lot of the fun comes in.

"Men of our age can't play tennis or baseball because these games are too strenuous. We're satisfied with golf, despite the English doctors' warning, and I guess we'll stick to it."

STUDENT MARRIAGES FAVORED BY BADGER UNIVERSITY PAPER

MADISON, Wis.—The Daily Cardinal, University of Wisconsin publication, has become the champion of undergraduate marriages. The Cardinal cites that there is a general opposition to the marriage of students and gives instances where it is forbidden.

"Colleges are made for men and women, not men and women for colleges and the duties of life are paramount to those in college," the editor announces.

"Opposition to marriage between men and women mentally and physically capable is utterly wrong, and especially so in the case of college men and women. Statistics from the biology and sociology departments show that there is a pitiful lack of marriages between college men and women, who, above all others are best fitted for it. Students represent the best classes of people, and their marriage is vitally essential to the betterment of the race."

Blotting paper was discovered by accident.

STATE GUARD SEEKS 800 NEW RECRUITS

MADISON, Wis.—A drive for recruits for the Wisconsin national guard is expected to put 800 new men on the roster before it closes on Dec. 1. This drive is merely to counterbalance the usual slump in ranks which comes at this period, Adjutant General Ralph M. Immell said on Wednesday.

The Detroit News claims that there are 10,000 "blind pigs" in Detroit.

For Creaky Joints

Just rub on the new application called Joint-Ease if you want to know what real joint comfort is.

It's for stiff, swollen, or pain-tortured joints whether caused by rheumatism or not.

A few seconds' rubbing and it soaks right in through skin and flesh right down to ligament and bone.

It oils up and limbers up the joints, subdues the inflammation and reduces the swelling. Joint-Ease is the one great remedy for all joint troubles and all live druggists are dispensing it daily—a tube for 60 cents.

PLANS COMPLETE FOR HIGH SCHOOL FESTIVITIES THIS WEEK

EDGERTON BATTLE BIG ATTRACTION OF THE WEEK-END

City Taking on Carnival Air With Display of Colors Everywhere

BIG PEP MEETING AT HIGH SCHOOL AUDITORIUM FRIDAY

Coach Finley's Re-vamped Eleven in Shape

"REMEMBER Edgerton! Avenge the defeat of 1916!"

This cry is being heard all over the city as the annual homecoming date approaches. Arm bands are being worn by the students, posters are plastered on windshields of automobiles, every body is boosting the biggest game of the year. It is estimated that Normal Field will be packed with one of the biggest crowds in history. For everybody's going to the big game with Edgerton. The game starts at 2:30.

Coach Finley is not passing up anything in way of preparation for the game and the student body at the high school is leaving nothing undone in the way of "preparation." The biggest celebration ever staged is to be held over the week-end. Two big events are the "pep" meeting on Friday night and the parade Saturday morning.

Scrimmage was in order for the eleven on Wednesday and Thursday. Skaff worked as half for most of the time, showing up in excellent form. "Abe" ripped off some gains of 30, 40, and 50 yds. The men are all in splendid shape for the game. They were on their toes and fighting every minute of the scrimmage. Members of the team are trying to make up for the loss of Hermann, Bendler and Birnbaum. If La Crosse losses to Edgerton there will be no excuse. But to watch the scrimmage was evidence that the eleven doesn't intend to get beaten, but to avenge the 1916 defeat.

The high school parade is in order for Saturday morning, starting at 10 o'clock. The line of organization is as follows: Seniors and the high school band meet at the Market Square; between Fourth and Fifth on King, stunt No. 1 meets on Fifth and King the Juniors will assemble between Fifth and Sixth on King, stunt No. 2 will line-up on Sixth and King will be the Sophmores; between Sixth and Seventh will be stunt No. 3, while the freshmen will bring up the rear, meeting at Seventh and King.

The line of march will be from the Market square to Fourth and Pearl, down Pearl to Third, over Third to Main, up Main to Twelfth, over twelfth to State and out State to the field.

Between the halves stunts will be staged on the field. Just what these are nobody knows but good entertainment is promised.

FOOTBALL SCHEDULE

NEW YORK.—Principal football games scheduled for November 17 in various sections of the country follow:

East

Amherst vs. Williams at Williamstown, Mass.
Army vs. Bethany at West Point, N. Y.
Boston college vs. Villanova at Boston.

UNIQUE CROSS COUNTRY RUN ARRANGED BY "Y" BETWEEN LA CROSSE AND WEST SALEM

ARRANGEMENTS have been made for a unique cross country relay race on Thanksgiving Day morning between the West Salem boys and a team picked from the boys' division of the La Crosse Y. M. C. A.

A team composed of about 30 boys between the ages of 12 and 18 years will represent each town in this race. Mr. Thompson, principal of the West Salem school, is in charge of West Salem relay team, while F. K. Shutte, physical director of the local Y. M. C. A., will coach the La Crosse team.

The West Salem team will start from their home town at 9:30 a. m. Thanksgiving Day and will run to La Crosse, each fellow on the team running a distance of one half mile. The La Crosse boy will start from the local Y. M. C. A. and will run to West Salem each member of the team running a distance equal to the distance covered by his competitor on the other team. Both teams will follow state highway No. 21 and the team completing the course in the shortest time will be declared winner. A suitable trophy will be awarded to the winning team.

The West Salem boys will be entertained at the La Crosse Y. M. C. A. where they will be given the privilege of the association including the showers and the use of the swimming pool after the finish of the race. Arrangements are also being made in order to make it possible for the visitors to remain in the city for Thanksgiving dinner and the football game in the afternoon.

This is the first time that such a race has been scheduled by the La Crosse Y. M. C. A. but it is planned now to make this an annual event.

MICHIGAN ELEVEN CRIPPLED AS IT DEPARTS THURSDAY

Weakened Wolverine Line Due for Pounding, According to Observers

ANN ARBOR, Mich.—The Michigan team left here Thursday night for Madison, crippled by injuries that are expected to slow up its game against the Badgers on Saturday.

Uteritz, regular quarterback, was out with a broken bone in his leg; and Vandervoort, regular tackle and Steel, right guard, each had injuries that will keep them on the sidelines.

With the Badgers already out of the conference race they are aiming to remove Michigan by a defeat Saturday. The Wolverines went through their first two conference games without a loss.

At the final practice the attention of coaches was directed to grooming Charles Grubb, and Rockwell to fill the shoes left vacant by Uteritz. Rockwell is expected to start.

The Wisconsin team put in its final practice developing its offense. The weakened Michigan line is due for a heavy pounding, according to observers.

ANCIENT RIVALS MEET ON GRIDIRON IN EAST SATURDAY

Yale - Princeton Engagement Marks Fiftieth Anniversary of Grid Clashes

NEW YORK.—Princeton engagement marking the fiftieth anniversary of their first gridiron battle, outranks all in general interest and will be witnessed by close to 80,000 in the Yale bowl. The rival teams have been specially primed for this contest, and although Yale's all conquering record might indicate otherwise, a closely fought battle with the winner in doubt until late in the game is the expectation of many close students of football play.

Syracuse in opposing Colgate for the twenty-sixth time in their series, will meet worthy foe; Washington and Jefferson in renewing its time honored struggle with Pittsburgh will fare similarly; and Cornell, also undefeated, may find the proverbial Tartar in Johns Hopkins, which has won its last five games.

Other contests on Saturday's program which will be followed with great interest and whose results will affect the final rating of eastern elevens, are those involving Harvard and Brown, Columbia and New York university, Williams and Amherst, West Virginia and St. Louis.

Justrite—a good 5c cigar.—Adv.

DIAMOND STAR

Jimmy Jones, one of the leading contenders for the welterweight title, is almost as good a ball player as a fighter. He plays third base on a semi-pro team at Youngstown, O., during the summer months. Big league scouts who have looked him over say he is very clever.

SHAUTE STARS

In Joe Shaute, American league players say the Cleveland club has the best young southpaw in the American league.

Justrite—5c cigar. You'll say so too.—Adv.

FIRST PRESBYS WON TWO GAMES FROM CONGO KIDS

The First Presbyterians continued in first place in the church athletic league after Thursday night, winning two out of three games from the Kongo Kids.

The Bethel Lutherans climbed closer to the leaders by taking all three from the Caledonia street Methodists.

The scores:

MINNESOTA PLANS SUCCESSFUL DAY AT HOMECOMING

Thousands of Football Enthusiasts Gathering for Classic on Saturday

DEFEAT WILL ELIMINATE GOPHERS FROM RUNNING

Both Teams Have Had Two Weeks to Prepare for Game

MINNEAPOLIS, Minn. — As thousands of football enthusiasts were gathering here today, the Minnesota football warriors and Gopher fans made ready to make the premier classic of the season—the homecoming game with Iowa here Saturday—successful from a Minnesota point of view.

Stands Will Overflow

Although the stands at Northrop field will overflow with more than 22,000 eager grid followers tomorrow, a vast number of latecomers because of a sell-out, will be unable to see the Gophers in one of the two important games in the Big Ten Conference in which championship possibilities are at stake. By defeating the already defeated but strong Hawkeye eleven, Coach Bill Spaulding's men may continue in the running for conference honors, while a victory for the Iowa gridmen will virtually eliminate Minnesota as a championship contender.

Both teams having had two weeks in which to prepare for the tussle Saturday, Minnesota and Iowa will throw their greatest composite strength into the fray. Their final appearance on Northrop field this year, in which two of the Gopher stellar performers will be seen in action by local fans for the last time, Coach Spaulding's aggregation is primed for its best showing. Captain Earl Martineau, one of the outstanding halfbacks in the conference whose play has been as flashy as ever, and Ray Eklund, an end of no mean ability, will graduate before the 1924 football season begins.

Aerial Passers

When play starts Saturday, Iowa will be confronted by a group of aerial passers, and elusive broken field runners such as to make the Gophers dangerous in every department of the game. With Martineau doing the brunt of the passing to Eklund and Merrill, two apt receiving ends, Graham will attempt to duplicate his long twisting and dodging runs of the Northwestern game, and Carl Lidberg, Martineau's running mate, and Lloyd Peterson, plunging fullback, will give the Iowa line no small task in stopping their smashes.

INDIANA RESUMES RELATIONS WITH WABASH SATURDAY

BLOOMINGTON, Ind—Indiana will resume football relations with Wabash College here Saturday for the first time in many years.

On a comparison of accomplishments for the 1923 season to date, Wabash is a favorite over the Crimson, Indiana, however, is coming along fast, as was proved in the game at Chicago last week, and its followers expect it to give the Little Giants a hard game. Coach Ingram has worked his charges hard this week and they probably will enter the game in fine fettle.

It will be the next to the last game on the Crimson schedule.

BALL BURSTS AND HOLDS UP TIGER-BULL DOG GAME

NEW YORK. — Bursting of the one and only available ball held up for half hour the historic football game between Yale and Princeton in November 1873, the first of a classic gridiron series that reaches its fiftieth anniversary Saturday in the battle between the Tiger and Bull Dog at Yale bowl.

Accounts of the initial game a half century ago say that the ball burst a few minutes after play opened from the impact of a "forceful kick." No other was available and it required a half hour for repairs. This interval, it is recorded was utilized by Princeton to lay a new plan of attack and when play was resumed, the Tigers launched an offensive that resulted in victory by three goals to none.

PURDUE AWAITS NORTHWESTERN IN HOMECOMING GAME

Hoosier Eleven in Better Condition Now than it Was a Week Ago

LAFAYETTE, Ind. — Recovered from its dismay at the overwhelming defeat handed it by the Ohio State eleven last week, Purdue awaits the coming of Northwestern here Saturday with every intention of "wiping up" the Purple footballers for revenge.

It will be home-coming day at Purdue and the varsity hopes to show the old grads a real team. The spirit of the Boiler Makers was not dampened to a serious extent by the unexpected trampling given by Ohio State; instead they are "fighting mad" and anxious for the opportunity to show their merit against another western conference aggregation.

Purdue is in better condition at present than it was a week ago, several of the best players having recovered from minor injuries which marred their effectiveness against the eleven from Columbus. Coach Phelan has drilled the athletes hard and expects to have the best team on the field tomorrow that has represented Purdue this year.

TEN MAN SHIFT

University of West Virginia is using a shift that has caused much comment in the east. It is a play in which but one of the eleven men holds his original position. West Virginia is coached by Fat Spears, former Dartmouth star. The shift that he has developed is an elaboration of the old Dartmouth shift taught by Major Fred Kavanaugh, now coaching Boston college.

WOLVERINE ON BATTLEGROUND WHERE IT MEETS BADGERS IN ONE OF BIG GAMES SATURDAY

CHICAGO, Ill.—Michigan, crippled by injuries received in last Saturday's game, Friday was on the battle ground where it will meet Wisconsin at Madison Saturday.

Wolverine coaches express confidence of a victory.

With a line that appeared to be stronger than that of their opponents, the Badgers may spring one of the surprises of the season by an overturn of the title aspiring Michigan team.

Coach Spaulding at Minnesota is making further shifts in his line-up in order that he may have reserves available for holes that may appear during the game with Iowa.

Reports from Iowa tell of the smooth working team that Coach Jones has. This eleven will work out at Iowa City again today before entraining for Minneapolis. All of the regulars are in shape for the first time this year.

Chicago showed its ability against Ohio State plays again yesterday. The Maroon outfit is still handicapped somewhat by injuries and Barnes probably will play at end in place of Dickson.

The Mississippi Aggies are coming to Urbana Saturday with a strong eleven.

HARRY GREB BEATS "CHUCK" WIGGINS

GRAND RAPIDS, Mich.—Harry Greb of Pittsburgh defeated "Chuck" Wiggins of Indianapolis in ten rounds, according to newspapermen.

MRS. FRANK ROONEY LEADS FOR PRIZE

Rolling a score of 191, Mrs. Frank Rooney took the lead for the Montague Candy company prize.

4,000 TO 5,000 WOLVERINES TO BE IN MADISON

MADISON, Wis.—Between 4,000 and 5,000 Michigan rooters will attend the football game here on Saturday according to Paul Hunter, in charge of university ticket sales. Tickets for the Chicago-Wisconsin game have been received and will be sent out starting Monday.

STATE ASSESSMENTS AGAINST UTILITIES SHOW GAIN OF OVER FIFTEEN MILLIONS FOR YEAR

MADISON, Wis.—A comparison of assessments against state railway, light, heat and power companies in Wisconsin by the state tax commission is made by statistics compiled by the commission. The assessments were announced recently for 1923, showing a total of $104,410,000, as compared with $87,415,000 last year.

Assessments for the two years for various companies follow:

Company	1923	1922
Bay Shore Street Ry. Co.	$ 10,000	$ 10,000
Beloit Traction Co.	200,000	200,000
Chicago & Milwaukee Electric	225,000	225,000
Duluth Street Ry. Co.	1,000,000	1,100,000
Eastern Wisconsin Electric Co.	5,000,000	4,500,000
Janesville Traction Co.	65,000	65,000
Lake Superior Dist. Power Co.	2,400,000	1,250,000
(Assessed in 1922 as Ashland Light, Power & Street Railway, and Ironwood and Bessemer Railway & Light Co.)		
Madison Railways Co.	1,000,000	1,000,000
Menominee & Marinette Tr. Co.	400,000	350,000
Milwaukee Northern Ry. Co.	1,700,000	1,500,000
Milwaukee Electric Ry. & Light Co.	59,000,000	52,500,000
Rockford and Interurban Ry.	200,000	275,000
Waupaca Electric Service Co.	75,000	75,000
Wisconsin Gas & Electric Co.	7,200,000	5,700,000
Wisconsin-Minnesota Light & Power Co.	12,500,000	8,500,000
Wisconsin Public Service Corp.	5,000,000	3,150,000
Wisconsin Ry. Light & Power Co.	850,000	850,000
Wisconsin Rapids Street Ry. Co.	85,000	100,000
Wisconsin Traction, Light, Heat & Power	4,250,000	3,000,000
Wisconsin Valley Electric Co.	3,250,000	3,000,000

The tax commission now is engaged in completing 1923 assessments on other public service corporations not included in the above list, particularly those of interstate nature.

In taxes, this year's assessments will net an increase of over $250,000 compared with last year. The total taxes from all utility concerns for which assessments have been made are $2,171,140 compared with $1,849,910 last year.

SUPPLIES GIVEN TO QUAKE VICTIMS WITHOUT CHARGE

TOKIO.—By The Associated Press.—The Japanese relief bureau has notified local representatives of the American Red Cross that a new method of distributing supplies to victims of the recent earthquake, tidal wave and fire disaster, is to replace the previous plan of selling goods at cost and returning the proceeds to the relief fund, the latter plan having proved unsuccessful.

Hereafter canned goods, blankets and clothing will be distributed without charge to the quake and fire sufferers, with the exception of some expensive garments which are to be sold without profit. Sanitary equipment and supplies and medicine are to be distributed free to hospitals and similar institutions.

MOVIES

"MAIN STREET"

"Main Street" with all its flavor and rural charm, the peculiarities, humors, poignancies, high and low spots, is recorded with uncanny skill and genius in "Main Street," which is showing at the Rivoli theatre, with Florence Vidor and Monte Blue in the featured roles.

The story is familiar to many: Carol Kennicott, her revolt against what she finds in Gopher Prairie, a Main Street town, her attempts to make it fit with the ideals she has acquired from books and college, her fight. The picture should be seen by everyone, for Main Street is a little world, and the world is composed of nothing but Main Streets.

"CIRCUS DAYS"

Jackie Coogan in "Circus Days" is reaching the close of his engagement at the Majestic theatre and as the final presentations draw near the demand for admittance becomes even greater and more insistent than it was at the beginning. It is generally agreed that this screen version of James Otis' immortal story of "Toby Tyler," the boy that ran away with a circus, is better adapted to Jackie Coogan's talents than any other vehicle in which he has yet appeared.

CASINO TODAY AND SATURDAY

Of more than passing interest is the motion picture, "The Common Law," which is a screen adaptation of Robert W. Chambers' famous novel of the same name. Co-starred are Corinne Griffith, Conway Tearle and Elliott Dexter, while an exceptional supporting cast includes Doris May, Hobart Bosworth, Miss du Pont, Bryant Washburn, Phyllis Haver, Harry Myers and Wally Van. The story of "The Common Law" is really that of Valerie West, a sweet and rather unsophisticated young girl who, suddenly thrown upon her own resources, sets out to earn her living. During her search for work she calls at the studio of Louis Neville, an artist who, seeing her great possibilities as a model, persuades her to pose for him in the nude.

Unexpected forces rush the story to its interesting and dramatic climax.

"MASTERS OF MEN"

A splendid cast has been afforded "Masters of Men," the great sea story by Morgan Robertson, which the Riviera theatre is showing tonight and Saturday, headed by Earle Williams, Alice Calhoun, Cullen Landis and Wanda Hawley. The story is striking, vivid picturization of life at sea with the background of a heart stirring love drama.

Dick Halpin, an orphan living in a small town, is falsely accused of a theft committed by the brother of the girl he loves. He accepts the blame in order to spare her humiliation, runs away and joins the United States navy. There is a scene reproducing the battle of Santiago.

AT THE STRAND TONIGHT

Twin horses are an unusual dramatic novelty said to give a decidedly different twist to "North of the Rio Grande," the Jack Holt-Bebe Daniels co-star Paramount picture which opens at the Strand theatre today.

The call of blood between two great equines, "Comet" and "Meteor" is said to give a novel touch to this play of the west. Supporting players include Alec B. Francis, Charles Ogle, Jack Carlyle, Fred Huntley, Shannon Day and Will Walling.

SECTION OF BATTLEFIELD TRENCHES DUG FOR FILM

For three weeks the odor of damp earth filled the nostrils of Corinne Griffith, Frank Mayo, Spottiswoode Aitken and of their director, Charles J. Brabin.

It took three weeks to film the events of six days—the "Six Days" of Elinor Glyn's title for the story she wrote for Goldwyn Pictures Corporation and which will be the attraction at the Casino theatre on Monday for six days.

Working from large-scale photographs of German dugouts, Goldwyn artisans faithfully reproduced a honeycomb of those damp dark retreats forty feet below the front line trenches.

The six days in the dugouts spent by the girl and the man of the story, were long after the evacuation of the enemy.

"ASHES OF VENGEANCE"

Soldiers of the fighting clans led by "Papa" Joffre and Marshal Foch fight again under the banner of France in "Ashes of Vengeance," Norma Talmadge's latest starring vehicle which is to be shown at the Majestic theatre next week.

"Ashes of Vengeance" is a romance of France in the days of Catherine de Medici. Some of its scenes show the soldiers of that period in the execution of duties requiring unquestioned devotion to the spirit of military discipline; and in the belief that the martial spirit of France would be best portrayed by French soldiers, Director Lloyd sought to have men who had served under the tri-color of France in the late war engaged for the production.

Forty-eight sets, among them the most massive interior ever built for a motion picture, were specially constructed for this picture.

PEACE COMMITTEE GETS PLANS FROM SCORE OF NATIONS

Bok Jury Begins Task of Picking Winning Plan from Among 22,165 Submitted

NEW YORK.—The jury which will award the $100,000 prize offered by Edward Bok, for the best practicable proposal to achieve and preserve peace, begins Friday the monumental task of picking the winning plan from the 22,165 which had been submitted at the close of the contest last night. Remedies proposed to end war came from men and women scattered among twenty-two nations.

Announcement of the winning plan is expected by January 1. For a month the jury of award, of which Elihu Root is chairman, has been going over previously submitted manuscripts, but the real process of selection starts today with examination of the flood of proposals that poured in as the time limit drew to a close.

The winner will receive $50,000 when the jury's announcement is made, and an additional $50,000 if the plan is approved by the United States senate, or when the jury has decided that an adequate degree of popular support has been shown for the chosen remedy.

ERADICATION OF CATTLE T. B. IS PROGRESSING

WASHINGTON.—Eradication of cattle tuberculosis is making much progress. Nearly 5,000,000 cattle under supervision of federal and state veterinary inspectors and there is a waiting list of more than 145,000 herds that will be tested as soon as inspectors can get to them, the department of agriculture states. Fully accredited herds, including both beef and dairy breeds, now total 661,260 cattle, while nearly 3,000,000 more have successfully passed the first test in the process of becoming accredited.

STORM MEXICAN JAIL AND LIBERATE PRISONERS

PUEBLA, Mex.—Sixty women, armed with pistols and knives, recently stormed the jail at Ajalpan, according to advices received here, and liberated three women and one man, incidentally wounding the mayor and clerk of court. The four were imprisoned because they protested against the action of the mayor in cornering the town's water supply and selling it at exorbitant prices.

STRANGE FORCE IS BLAMED FOR WRECKS ON PACIFIC COAST

Accidents Not Alone Due to Wind and Weather Declares Mariner

LOS ANGELES, Calif.—By The Associated Press.—Neither tidal wave nor currents of seismic origin, but some other strange force was responsible for the recent wreck of seven United States destroyers and the crash a few days later of the superdreadnaught Texas and the freighter Steel Seafarer in the waters off Point Arguello, north of Santa Barbara, Calif., according to Captain Davis, a mariner of the old school who sailed his clipper ship around the Horn a decade ago.

The west entrance to Santa Barbara channel, between Point Conception and San Miguel islands, always has been in ill repute among seafaring men, said Captain Davis. Its nickname, "the graveyard of ships," was earned about the time of Cabrilli, who there lost his life and was buried on one of the channel islands, according to stories which have become legends. It is said at no other point on the Pacific have so many ships met disaster, and always the cause remained a mystery.

Captain Davis said he recalls many wrecks along the coast near Point Arguello dating back to the time of the mystery disaster of the Golden Horn. Always, said the old sea captain, those who escaped, have had the same story to tell, of suddenly becoming enveloped in a fog and then, without warning, crashing on rocks. Invariably, he said, the navigators had thought themselves in mid-channel, their instruments showing them to be on a safe course, when in reality they were miles from their course.

"Something unexplained by scientists," declared Captain Davis, "beckons the ships to shore, and every man who has sailed this coast for any length of time knows that something will get him if he doesn't watch out."

Serious Charge

Judge—What's this man charged with, officer?

Policeman—Careless walkin', yer honor. He bumped into a truck and bent both fenders and the radiator.—American Legion Weekly.

REV. STEWART IN CHICAGO TO ATTEND TWO CONFERNCES

Rev. W. S. Stewart of the First Baptist church left Wednesday evening for Chicago to attend the "International Conference of Daily Vocation and Church Workers." The meetings are being held at the Chicago Beach Hotel from Nov. 15 to 17. He will also attend a Denominational Conference of Baptist Religious Educators.

Rev. Stewart, who is a district Kiwanis speaker, intends to address several of the Chicago Kiwanis Clubs.

COLONY TRAINING CENTER PLAN OF BLIND VETERANS

ST. LOUIS, Mo.—Establishment of a colony as a training center for blind former service men will be discussed at the second annual convention of the United States Blind Veterans of the World War, to be held here November 12-17.

The purpose of the colony would be to help Americans, blinded in service, realize their ambitions, according to the local arrangements committee.

Subjects to be taught would include poultry raising on a commercial scale, landscaping, gardening, typewriting, basketry, woodworking, weaving, music and civics.

It also is proposed to establish a trust fund to be used as a revolving loan fund for those desiring to engage in business.

Another subject to be considered is that of research work with a view to lightening the burdens of the blind.

AUSTRALIA ERECTS GIN TO PROMOTE COTTON NDUSTRY

SYDNEY, N. S. W.—New South Wales, which shares with Queensland the honor of pioneering the cotton industry in Australia, now has its own gin, erected at Newcastle under the supervision of the British-Australian Cotton association. The premier and a large parliamentary party with other prominent figures were present at the opening.

The cotton industry in New South Wales is new, but it shows promise of a good future. Last year, sufficient seed was supplied to plant more than 7,500 acres. The demand for seed has been widespread and it is estimated that from 20,000 to 30,000 acres will be planted in this state. The cotton acreage in Queensland is considerably larger.

A. Keleel Announces

the purchase of the store at Sixth and Market streets, formerly owned by Marr & Folts.

In addition to groceries and confectionery, a line of dry goods has been added to the stock.

Patronage is respectfully solicited.

Costs less per cup because—

in Thomas J. Webb Coffee the following extraordinary precautions have been taken to provide and preserve full coffee flavor and richness:

—it is a Superior Blend—

of only the choicest and most expensive of coffees—those scientifically known to contain the greatest amount of essential coffee oils.

—Sealed in the Roasting

It is roasted in the "live flame"—an original roasting process that seals all the flavor-giving oils into each tiny cell of the coffee cherry. As a result, all the natural richness of Thomas J. Webb Coffee goes into your coffee cup.

—Sealed in the Packing

Furthermore, the freshly roasted coffee itself is in turn packed and sealed in air tight, moistureproof tins. This insures freshness of every precious particle all the way down to the last coffee bean in the tin. These are the reasons why Thomas J. Webb Coffee—

yields more cups to the pound

No better made Than here displayed.

Today's Market Basket Is a Veritable Gold Mine of Very Tempting Food Bargains

WINONA MAN SUES FOR INJURIES RECEIVED HERE

Donald M. Sweeney of Winona has filed suit for $50,000 damages against the Chicago, Milwaukee and St. Paul railway for injuries alleged to have been received at North La Crosse Dec. 18, 1922, when the caboose of the freight train in which he was a passenger was struck by the locomotive of another train.

He declared that he was jostled and thrown about "with great force and violence," causing severe and permanent injuries which forever totally incapacitated him for work. He further asserted that his spine and back had been wrenched and bruised, that his heart and left side had been severely injured, that his left leg and ankle had been bruised and lacerated, that his nerves had been severely shocked, and that he had since been afflicted with insomnia.

BOWDLE LOSES TAX SUIT

BOWDLE, S. D.—This city must levy a tax to raise $30,000 to pay for its water works system, according to a decision made by Judge James D. Elliott of the United States district court. A St. Paul contractor put in the system, but the city refused to pay, on the ground that work was faulty in places. The contractor assigned his claim to a bank, which brought suit in federal court and has now won a judgment.

FORECAST OPEN WINTER

RED WING, Minn.—Old-time river men in this section assert an open winter may be looked for. They have received the "highsign" from the mud turtles, which have not yet sought their winter quarters in the river mud. A turtle of sufficient size and weight to indicate he is of large experience, was seen sunning himself on the bank of the river, and those who have studied the ways of animals say that if a hard winter was ahead he would have been already sleeping deep in the mud.

Iowa Federation of Labor is backing a project for establishment of a labor-farmer bank in Des Moines.

Bill's Coming

I saw you taking home a nice-looking lobster last night. How much did it cost you?

I don't know yet. The doctor is up at the house now.—Passing Show, London.

Eatmor Cranberries

"My, but it's good!"

—that's what you'll hear when a luscious cranberry pie is served for dessert.

Cranberries—the fruit for every meal. Serve as a sauce, as jelly, or as butter.

Economical—healthful—easy to prepare.

A recipe folder, containing many ways to use and preserve cranberries, will be sent free on request.

EPISCOPAL BISHOPS FAVOR U. S. ENTRY INTO WORLD LEAGUE

Suggest as Alternative Some Other Association of Nations to Settle World Disputes

DALLAS, Texas.—By The Associated Press.—Having disposed of a number of matters of importance to the Protestant Episcopal church, U. S. A., at a two-day session here, members of the house of bishops Friday were returning to their dioceses in various parts of the United States and in foreign fields.

Entrance of the United States into the league of nations, or immediate steps by this country to organize "some other effective association or council of nations for the purpose of settling amicably international disputes and thus save us from the great danger of another world war" was advocated in a resolution adopted at the concluding session yesterday. Copies of the resolution are to be sent to President Coolidge, Secretary of State Hughes and the chairman of the senate committee on foreign affairs.

The Most Rev. A. C. Garrett of Dallas, 91 years old, ranking bishop of the house, who called the session and attended its deliberations despite the handicap of blindness, and his advanced age, pronounced a benediction upon his departing brothers, one of whom, Bishop Overs, came from Liberia.

Canada erected wireless direction-finding stations as an aid to navigation five years ago.

WISCONSIN DEATH RATE LOWER THAN FOR PAST 5 YEARS

MADISON, Wis.—A death rate of 8.9 per thousand people was recorded for Wisconsin during July, August and September and was lower than the average rate for the last five years, according to statistics announced Friday by the state board of health. The estimates were based on 6,070 deaths during the quarter.

The records show an increase of 230 in total deaths over the corresponding period last year. Among the important causes of deaths were: tuberculosis, 394; diphtheria, 74; pneumonia, 266; cancer, 589; violence, 558. Deaths from violence were reported as follows: automobiles, 95; accidental drowning 66; falls, 66; suicide, 75; railroads, 42; gunshot wounds, 20; electrocution, 12.

The northern section of the state had a death rate of 7.8 per thousand, the central section, 8.0, and the southern counties, 9.3.

Bait Industry Growing

The making of artificial flies for catching game fish has grown into an industry employing hundreds of persons. Every possible kind of bug or fly is cleverly imitated to lure the wary fish to the hook. They are not only colored in gay tints but feathers, also, are used in their construction. The feathers, too, are dyed in every color of the rainbow. A special kind of hook used in this bait comes from Norway and the silk worm gut is supplied by Spain.

In the anthracite fields the worker's average annual earnings are more than $1700 a year.

LEGAL NOTICES

Notice to Prove Will and Notice to Creditors

State of Wisconsin, County Court, La Crosse County—In Probate.

In Re Estate of Knute Olson, Deceased.

Notice is hereby given, That at the special term of said court to be held on the second Tuesday, being the 11th day of December, A. D. 1923, at the Court House in the City of La Crosse, County of La Crosse, and State of Wisconsin, there will be heard and considered, the application of Aldin Olson to admit to probate the last will and testament of Knute Olson, late of the Town of Campbell, in said county, deceased, and for the appointment of an executor;

Notice is hereby further given, That at the special term of said court to be held at said Court House, on the third Tuesday, being the 18th day of March, A. D. 1924, there will be heard, considered and adjusted, all claims against said Knute Olson, deceased;

And notice is hereby further given, That all such claims for examination and allowance must be presented to said County Court at the Court House in the City of La Crosse, in said county and state, on or before the 18th day of March, A. D. 1924, or be barred.

Dated November 15th, 1923.

By the Court,
JOHN BRINDLEY, Judge.

DISTRICT COURT OF THE UNITED STATES for the Western District of Wisconsin.

In the matter of Anton Hoffman, Bankrupt.

The above named bankrupt having filed his petition to be discharged, the court made the following order thereon, to-wit:

On the 16th day of November, A. D. 1923, on reading the foregoing petition, it is

Ordered by the Court that a hearing be had upon the same on the 27th day of December, A. D. 1923, before said court at La Crosse, in said District, at 10 o'clock in the forenoon and that notice thereof be published in La Crosse Tribune and Leader-Press, a newspaper printed in said District and that all known creditors and other persons in interest may appear at the same time and place and show cause if any they have, why the prayer of said petitioner should not be granted.

And it is further ordered by the Court that the Clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness, the Honorable Claude Z. Luse, Judge of said Court, and the seal thereof at La Crosse in said district, on the 16th day of November, A. D. 1923.

(SEAL OF THE COURT)

WM. H. COMERFORD, Clerk.
By ALFRED HARRISON, Deputy.
CONWAY & KING,
Attorneys for Bankrupt,

FIVE SWEETHEARTS SHOW DANCES OF VARIOUS COUNTRIES

The Five Sweethearts who are to be featured in the Rivoli vaudeville program Sunday, Monday and Tuesday of this week have a diversified offering in which character descriptive songs are rendered the way you like to hear them, while fast snappy dances of the different races of people of the world are portrayed in an entertaining manner. Silken hangings and draperies of special make, together with novel lighting effects serve to high light and set off to best advantage the many beautiful costumes worn by the different members of the quintette during the time alloted to them on the program.

OBITUARY

WEBSTER A. STANFORD

Webster A. Stanford, known over a large part of western Wisconsin as "Web" Stanford, died suddenly in Melrose. Mr. Stanford succumbed to heart trouble, dying almost instantly after eating his breakfast.

Mr. Stanford was a veteran barber, and for a number of years his residence was Galesville, where he plied his trade, sometimes with a partner and again alone. Ettrick, Taylor, Merillan, Eleva, Mineng, Lindsey, La Crosse, Dexterville and other points were registered as his home at different times.

CHARLES P. UPTON

The funeral of Charles P. Upton, who was killed Wednesday near Red Wing, will be held from the Elliot Undertaking parlors of Minneapolis.

Mr. Upton was an extra passenger conductor and left La Crosse Wednesday morning at 7:15 on a run to Minneapolis. He was switching at the west end of the Red Wing yards when last seen by the crew. This was about 3:15 p. m. When seen the next time, he had been run over but how he got under the wheels is not known. His head, arms and legs were severed when picked up by the crew. Mr. Upton's age was given as about 45 years.

The remains were taken to Minneapolis for burial. He is survived by his widow and five children.

HENRY ARNESON

Henry Arneson, aged 52 years, died Wednesday at Madison, Wis. The cause of death was paralysis. Mr. Arneson was born in La Crosse May 19, 1871.

He is survived by his wife, two daughters, Constance, aged 11; Gertrude, aged 10 years; his mother, Mrs. Karen Arneson; two brothers, Ole and August Arneson, all of this city.

The funeral services will be held Saturday from the home, 1013 Green Bay street, at 2 p. m. Rev. Father Riesterer will officiate. Interment will be in the Catholic cemetery.

Public Debate

Grand Crossing, Wis., Nov. 14th, 1923.

At a recent convention of the Burlington railroad and the Mechanical Department association of the Burlington railroad, it was agreed that the existing schedule of rates of pay and rules governing working conditions is hereby continued until November 1st, 1923, and thereafter subject to 30 days' notice of either party thereto, for a desire for a change.

Effective November 1st, 1923, increase of rates 2 cents per hour uniformly to all crafts. Quoting Mr. F. F. Bracken, vice president of the Burlington railroad: "In recognition of the efficiency and high moral character of the present employees and the desirability of promoting present employees to higher grades of work and rates of pay, the Burlington railroad has voluntarily increased the rates of pay 2 cents per hour amounting to an average of $4.00 per month of $980,000 per year for the system."

This increase, in view of the fact that this is the time of the year when corporations usually commence to curtail, laying off men, cutting hours, etc., should demonstrate the strength of the Mechanical Department association and also show that the Burlington railroad recognizes a good thing, namely, an efficient loyal corps of employees.

C. B. & Q. Shops. Tel. 2704-A.

DAILY MARKETS

LIBERTY BONDS

NEW YORK—Liberty bonds at 1 p. m.:

3½s	99.26	Fourth 4¼s	98.5
First 4¼s	98.4	U. S. government 4¼s	99.15
Third 4¼s	99.5		

NEW YORK STOCK MARKET

NEW YORK—Conflicting price movements took place at the opening of Friday's stock market. There was a fair demand for some of the low-priced rails with Reading leading the early advance in that group. Coppers were heavy. Davison Chemical advanced two points and Kresge broke through to a new 1923 high.

Most of the standard industrials developed a slightly reactionary trend in the early dealings. Revival of rumors of a forthcoming cut in the dividend caused another break of 4½ cents in Jones Brothers' Tea, which duplicated its previous low of the year. Congoleum dropped 1½ points on profit-taking and Stromberg Carburetor dropped 2½. Coal carrying rails improved. Foreign exchanges were weak, demand sterling establishing a new low for the year and French francs selling at the lowest rate in all time.

CHICAGO GRAIN MARKET

CHICAGO, Ill.—Influenced by weakness of sterling exchange and by prospects of an increase in the domestic visible supply total, wheat prices underwent a fresh decline Friday in the early dealings. Bears made much, too, of assertions that any advance in the wheat tariff would probably be so late that much Canadian wheat would be unloaded beforehand in the United States. Reports of large shipments of grain from Russia counted also as a depressing factor. The opening, which ranged from ¼ to ⅞ to 1c lower with December $1.02 to $1.02⅝ and May $1.07½ to $1.07¾, was followed by a material further drop.

Subsequently notice taken of predictions that the wheat tariff would be raised within a few weeks tended to bring about a rally but were offset somewhat by declines in New York stock market quotations. Wheat closed nervous, ⅛ to ¼ to 1⅛ to 1¼c net lower, December $1.01¾ to $1.01⅞ and May $1.07¼ to ⅜ to $1.07⅜.

Predictions of enlarged receipts had a bearish effect on corn. After opening unchanged to ½c lower, December 73⅞ to 74½c the market showed a decided general setback.

Later the market recovered a little as a result of forecasts that no big movement was to be expected for two weeks. The close was unsettled, ⅛ to ⅝c net lower, December 73¾ to 73⅞ to 74c.

Oats were relatively steady, owing to demand from cash interests. Prices started unchanged to ⅛c off, May 44c and then held near to the initial figures.

Scantiness of stocks of lard gave firmness to the provision market.

RELIGIOUS MEASURE SEEKS BREAK WITH CHURCH OF ENGLAND

Plan to Establish National Indian Church Starts Long Drawn Out Controversy

CALCUTA — The Indian church measure, which provides that India, Burma and Ceylon follow the examples of Canada, Australia and South Africa in breaking off from the Church of England and establishing a national Indian church, has involved both clergy and laity in a voluminous newspaper controversy, and threatens to result in a schism among Anglican religious communities.

The movement advocating a national church in India has been increasing gradually since 1912, when a representative gathering of the Anglican denomination in India expressed a desire that the church in India should have full synodical government. The present proposed measure, which would free the Indian church from the control of Canterbury, is advocated by the bishops in India, and by the clergy generally, but is meeting with intense opposition from many of the English laity.

Those opposed to the measure hold that the English forms of worship, and the English prayer book, are essential to the welfare of the church, and fear that an Indian church under Indian control, would break away from the English traditions, in respect to both doctrine and ritual. British residents in India, it is further contended, would be unable to find a national Indian church congenial to their interests.

The Bishop of Calcutta is an advocate of the proposed self-governing church.

LOTS OF FUN

STOCKHOLM—The longest ski-slide in the world was opened in a beautiful stretch of the Swedish forests recently. It's 60 miles from end to end and winds along a road that's centuries old.

Sore Throat Prudence

Your medicine shelf is not well stocked without a bottle of **TONSILINE**, for you don't know what moment it may be needed to relieve a sudden case of Sore Throat. Relieving Sore Throat is **TONSILINE'S** special mission. It is made for that—advertised for that—sold for that one purpose. **TONSILINE** is the National Sore Throat Remedy. It is sold in every State in the Union. You will need **TONSILINE** one of these days, or some night when the drug store is closed—better have a bottle ready at home when you need it most. 35c., and 60c. Hospital Size, $1.00.

POULTRY CULLING DEMONSTRATIONS ARE ANNOUNCED

Poultry culling demonstrations have been announced for the week of November 19. These demonstrations are under the auspices of the Homemakers' club. The meetings have been arranged at various centers and it will be possible for all farmers in this locality to be present at one of these demonstrations because they will not have to go far to attend.

The schedule which has been arranged to date, follows:

Monday at 1:30—Schurz farm.

Tuesday, 10—John Schneider farm.

Tuesday, 1:30—Will Hauser farm, Sand Lake Coulee.

Wednesday, 10—Sunshine Poultry farm.

Wednesday, 1:30 — Brinkman's Ridge.

Thursday, 10—To be announced later.

Thursday, 1:30 — Lower Dutch Creek.

Friday, 10—William Claus farm, Brown's Valley.

Friday, 1:30—Sand Creek district.

Where only the district, ridge or coulee has been indicated on the list the farm will be announced. Any changes will also be announced. Mr. Umbright and Mr. Spreiter will have charge of all of the demonstrations.

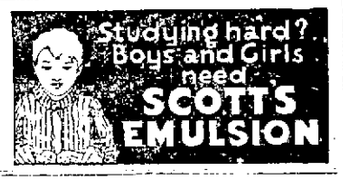
ROLLS 73 HOURS TO REACH FRISCO

SAN FRANCISCO.—After seventy-three hours of actual rolling time, Ted Wright, who left Los Angeles Friday noon on a roller skate jaunt to San Francisco, arrived on Tuesday. The wheels of Wright's skates were almost worn through.

INDIAN WAR SURVIVOR DIES

FARGO, N. D.—Mrs. Charles H. Thompson, 70, a survivor of the Indian war battles near Moore's Prairie, Minn., and a Cass county resident since 1876, died at her home at Mapleton of heart disease. She was born in Stockton, N. Y., but moved to Moore's Prairie with her parents in 1859. She was there when the Indian war broke out and with her family fled to St. Anthony.

Good Peanuts, roasted good. Bodega Club.—Adv.



ARTHUR FRIES IS HELD UNDER BONDS ON THEFT CHARGES

Arthur Fries, a youth, was held under $200 bail for appearance in circuit court to answer to charges of robbing the home of Joseph Lapitz and stealing a child's bank containing about $14. Fries was represented by F. H. Hartwell when arraigned before County Judge Brindley Thursday afternoon.

AUSTIN, Minn. — Considerable complaint relative to the loss of hogs in Mower county brought a warning from F. L. Liebenstein, county agent, to farmers to report cases that might be hog cholera. Many herds in the county are sick, Mr. Liebenstein said, and the losses have been heavy.
